Dear NRC:

I would like to request that a hearing be held to review the application PG&E has submitted enabling it to store more radioactive waste on site at Diablo Canyon.

Give the citizens a chance to voice their opinions about this very controversial situation.

After all, the deadly waste will be there How long?

Thank-you,

Jeanne

Application to store spent fuel
Request hearings to be held locally
Docket No. 72-26
TAC No. – L23339

Honorable Chair of the U. S. Nuclear Regulatory Commission:

The Port San Luis Harbor District respectfully requests the Commission to hold hearings in San Luis Obispo regarding the Diablo Canyon Nuclear Power Plant's application for spent fuel storage. Holding licensing hearings locally will allow the public and interested parties the opportunity to provide your Commission with testimony on the licensing of spent fuel storage.

A majority of the Port San Luis Harbor Commission has voted to oppose the licensing of additional spent fuel storage at Diablo Canyon Nuclear Power Plant.

Your consideration of scheduling hearings locally is greatly appreciated. Thank you.

Sincerely,

Carolyn Moffatt, President
Port San Luis Harbor Commission
