

R. Lowenstein, Acting Director  
Division of Licensing & Regulation

JUL 26 1961

H. L. Price, Acting Director of Regulation

ACRS LETTER, JULY 21, 1961

In its letter of July 21, 1961 summarizing the 35th meeting of the ACRS, the Committee recommended that a representative, continuous recording of wind speed and direction should be available at the site of each power and testing reactor.

Please see that the necessary action is taken to carry out this recommendation both in existing power and testing reactors and in future cases.
