MEMORANDUM TO FILE - SITE CRITERIA

From : J. B. Graham, Executive Secretary, ACRS

Subject : MEETING OF ENVIRONMENTAL SUBCOMMITTEE ON NOVEMBER 29, 1961

A meeting of the Environmental Subcommittee was held on November 29, 1961 at the "H" Street Building. The purpose was to review a revision of the Part 100 - Site Guides - which was published in the Federal Register in February 1961.

The ACRS was represented by Dr. Thompson, serving as Subcommittee Chairman, Dr. Gifford and Dr. Silverman. The Commission was represented by Mr. H. Price, Mr. Lowenstein, Mr. DiNunno, Mr. Waterfield and Mr. Kingsley (OGC).

This was a working meeting which had as its objective the re-working of the draft Part 100 into a form acceptable to all parties and incorporating those changes recommended by respondents which appeared to improve the content of the guide.

The version of Part 100 resulting from this meeting was furnished to the full Committee at its December 7-9 meeting and is identified as draft prepared by DL&R dated December 7, 1961. It was the basis for further discussion with the staff during the full ACRS meeting and is the version commented upon by the Committee in its letter of December 13, 1961 to Dr. Seaborg on this subject.

It was commented upon in both the Subcommittee and full Committee meetings that the draft Technical Information Document referenced by Part 100 (Rev.) needed further review. It was agreed that Committee members would review it as their time would permit and furnish any comments concerning improvement to Mr. DiNunno. If needed a subcommittee meeting would be set up to provide a more detailed review of the document.
