

June 24, 2002

MEMORANDUM TO: John T. Larkins, Executive Director  
Advisory Committee on Reactor Safeguards

FROM: Farouk Eltawila, Director **/RA by Charles E. Ader for:**  
Division of Systems Analysis and Regulatory Effectiveness  
Office of Nuclear Regulatory Research

SUBJECT: DRAFT ADVANCED REACTOR RESEARCH PLAN

Attached for the Advisory Committee on Reactor Safeguards (ACRS) Subcommittee review is our latest version of the Draft Advanced Reactor Research Plan. The plan has been updated from both the April 9, 2002, ACRS full committee's meeting and inter-office peer reviews.

In our earlier March 28, 2002, memorandum, we requested a series of meetings with the ACRS to obtain comments at both the high programmatic level, and at the specific research activity level. We believe our last meeting with the full ACRS Committee has met our first objective, and the upcoming July 8, 2002, Subcommittee meeting on advanced reactors will meet our second. We are continuing our inter-office peer reviews and will address additional comments from these efforts along with comments from the ACRS in our final research plan this fall.

Please contact John H. Flack at 301-415-0426 should you need any additional information.
