Docket No. 50-445

Mr. William J. Cahill, Jr.
Executive Vice President, Nuclear
Texas Utilities Electric Company
400 North Olive Street, L. B. 81
Dallas, Texas 75201

Dear Mr. Cahill:

SUBJECT: DRAFT OPERATING LICENSE FOR COMANCHE PEAK, UNIT 1

The staff has prepared the enclosed draft operating License No. NPF-28 for the Comanche Peak Steam Electric Station, Unit 1. This license is limited to 5% of rated thermal power and is accompanied by: Attachment 1, TDI Diesel Engine Requirements; Appendix A, Technical Specifications; Appendix B, Environmental Protection Plan; and Appendix C, Antitrust Conditions. The draft operating license including attachments and appendices is being furnished for your information at this time.

The draft license does not presently reflect the incomplete transfer of 2-1/6% ownership interest from Tex-La Electric Cooperative of Texas, Inc. to TU Electric Company. The draft license does reflect three exemptions to 10 CFR Parts 50 and 70 which we expect to be in effect at the time of license issuance.

At the time of license issuance, you will be provided with three copies of an amendment to Indemnity Agreement No. B-96 which covers the activities authorized under Facility Operating License No. NPF-28 and you will be asked to sign and return one copy.

At the time of license issuance the staff will publish a Notice of Issuance of Facility Operating License in the Federal Register and will provide you with a copy along with the license package.

The enclosure to this letter is being placed in NRC's Public Document Room and the Local Public Document Room. A copy of the actual license will be provided upon issuance to all those on the service list.

If you have any questions about the license, its attachment, or the appendices, please contact J. H. Wilson, our Assistant Director for Projects, at (301) 492-3306.

Sincerely,

(original signed by)

Christopher I. Grimes, Director
Comanche Peak Project Division
Office of Nuclear Reactor Regulation

Enclosure:
Draft License No. NPF-28
