**SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)  
DOCKET NOS. 50-445 AND 50-446  
SUPPLEMENTAL RESPONSE TO NRC ORDER FOR INTERIM  
SAFEGUARDS AND SECURITY COMPENSATORY MEASURES**

REF: (Listed in cover letter)

Gentlemen:

Via reference 1, the U.S. Nuclear Regulatory Commission (NRC or Commission) issued an Order to TXU Generating Company LP (TXU Energy) that modifies the current operating licenses for Comanche Peak Steam Electric Station (CPSES), Units 1 and 2. The Order was immediately effective and requires compliance with specific interim safeguards and security compensatory measures as stated in an attachment to the Order. TXU Energy answered the Order in letter TXX-02058 (reference 2). In letter TXX-02059 (reference 3), TXU Energy requested an extension of time to answer two Interim Compensatory Measures (ICMs) in the Order (ICM B.2.a.(1) and ICM B.2.a.(2)). TXU provided a supplement to its answer to the Order in letter TXX-02089 (reference 4). In a letter dated June 4, 2002 (reference 5), the NRC found that TXU Energy satisfied the 20 day reporting requirement of the Order and granted an extension until June 20, 2002, for TXU Energy to answer ICMs B.2.a.(1) and B.2.a.(2).

**NOTICE: Attachment 2 contains "Safeguards Information." Upon separation of Attachment 2, this letter, including Attachment 1, are "Decontrolled."**
