Draft Regulatory
Guide DG-4006

REGULATORY GUIDE DISTRIBUTION LIST (DIVISION 4)

SUBJECT: WITHDRAWAL OF DRAFT REGULATORY GUIDE DG-4006

The Nuclear Regulatory Commission is withdrawing Draft Regulatory Guide DG-4006, "Demonstrating Compliance with the Radiological Criteria for License Termination," from consideration as a regulatory guide. DG-4006 was published for public comment in August 1998.

This draft guide proposed guidance on demonstrating compliance with radiological criteria at the sites of licensees who wish to terminate their licenses and release their sites. Appendix D of NUREG-1727, "NMSS Decommissioning Standard Review Plan," published in September 2000, incorporates the guidance that was proposed in DG-4006.

Regulatory guides may be withdrawn when they are superseded by the Commission's regulations, when equivalent recommendations have been incorporated in applicable approved codes and standards, or when changes in methods and techniques or in the need for specific guidance have made them obsolete.
