United States Nuclear Regulatory Commission  
Materials Safety Branch  
Division of Industrial and Medical Nuclear Safety  
Attn: Ujagar S. Bhachu  
Two White Flint North  
11545 Rockville Pike  
North Bethesda, MD 50852

Dear Mr. Bhachu:

Scan Technologies had withdrawn the SS & D application for the CM100 Conductive Materials Moisture Monitor to clarify some concerns listed in your letter dated February 22, 2002. All questions and concerns have been addressed and the application re-submitted on June 18, 2002.

Please review the re-submitted application of the Sealed Source & Device for the Specifically Licensed device containing by-product material. The device is a CM100 Conductive Materials Moisture Monitor. The re-submitted application takes into account all of your points expressed in your notes and on the telephone.

If you have any questions concerning this application, please contact me at 800-955-8321 or by mail at the following address.

Scan Technologies, Inc.  
Attn: Carl Baldwin, RSO  
Rock Branch Industrial Park  
P.O. Box 569  
Poca, WV 25159

I appreciate your help with this application.

Sincerely,

Carl Baldwin,  
Radiation Safety Officer
