Dear Mr. Liu:

SUBJECT: CORRECTION TO THE SAFETY EVALUATION RELATED TO AMENDMENT NO. 200  
TO FACILITY OPERATING LICENSE NO. DPR-49 - DUANE ARNOLD ENERGY  
CENTER

By letter dated October 4, 1994, the Commission issued Amendment No. 200 to Facility Operating License No. DPR-49 for the Duane Arnold Energy Center (DAEC). This letter contained a Safety Evaluation by the office of Nuclear Reactor Regulation related to the Amendment. The Safety Evaluation contained an editorial error that is in need of correction.

The last sentence of the last paragraph in section 2.1 (LPCI and Core Spray Operability) of the Safety Evaluation reads as follows:

"These coincide with the specific changes made in the TS LCOs concerning core spray subsystem component operability."

The reference to the core spray subsystem is incorrect. The correct reference is the containment spray subsystem. Therefore, the sentence should be recognized to be changed and read as follows:

"These coincide with the specific changes made in the TS LCOs concerning containment spray subsystem component operability."

Sincerely,

ORIGINAL SIGNED BY

Anthony H. Hsia, Project Manager
