Docket No. 50-266

Wisconsin Electric Power Company
Wisconsin Michigan Power Company
Attn: Mr. John G. Quale, President
231 West Michigan Street
Milwaukee, Wisconsin 52301

Change No. 2
License No. DPR-24

Gentlemen:

As a part of the operating license review conducted for the Point Beach Nuclear Plant Unit No. 1 and 2, a single set of Technical Specifications was developed and intended to be used as the regulatory requirements for the licensed operation of both Unit 1 and Unit 2. These Technical Specifications were subsequently incorporated as Appendix A to Operating License No. DPR-24 for Point Beach Unit No. 1 issued on October 5, 1970, and are currently in effect for Unit 1.

In the course of the licensing process for Point Beach Unit 2, we determined that it was necessary to modify the Technical Specifications issued for Unit 1 to incorporate updated regulatory requirements as reflected in new regulations and safety guides and also as reflected by operating experience obtained with Unit 1. These updated Technical Specifications were subsequently incorporated as Appendix A to Operating License No. DPR-27 issued for Point Beach Unit 2 authorizing fuel loading and subcritical testing issued on November 16, 1971 and are currently in effect for Unit 2.

In your letter of October 26, 1971, you proposed that the modifications referred to above be incorporated as a change to the Technical Specifications for Unit 1 so as to obtain the original objective of one set of Technical Specifications for the Point Beach Nuclear Plant Unit No. 1 and 2.

As discussed above, the proposed changes to the Unit 1 Technical Specifications already appear in the Unit 2 Technical Specifications and are identified by the designation Amendment 2, 7/71 at the bottom of the title page as well as on numerous other pages in the document where modifications were made. We have concluded that the proposed change does not present significant hazard considerations not described or implicit in the application and that there is reasonable assurance that the health and safety of the public will not be endangered.

MAR 8 1972

Accordingly, the Technical Specifications identified above and currently in effect for Unit 2 only are hereby authorized to be effective for both Point Beach Unit 1 and 2.

Sincerely,

Original Signed by
Peter A. Morris
