Change No. 1  
License No. DPR-24

Gentlemen:

This is in response to your letter dated October 5, 1970, requesting ~~a change in the operating license for Point Beach Unit No. 1, related to equipment and/or operations that would reduce releases of radioactive materials to unrestricted areas.~~ <sup>THE FOLLOWING CHANGE</sup> We have designated this as Change No. 1 to the Technical Specifications for Point Beach Nuclear Plant, Unit 1.

~~Your proposed change incorporates a commitment that on or before June 1, 1971, you will request authorization of the Atomic Energy Commission to effect changes in your facility which would reduce radiation exposures and releases of radioactive materials to the environs in accordance with the then current state of the art. This is an administrative change which in no way at this time alters the design and operating procedures of Unit 1. On this basis, we have concluded that the proposed change does not involve significant hazard considerations not described or implicit in the Final Facility Description and Safety Analysis Report and that there is reasonable assurance that the health and safety of the public will not be endangered.~~
