Gentlemen:

Subject: Inspection No. 030-20934/86-02

This refers to the routine safety inspection conducted by Mr. Van Scovill and Ms. Marlene Taylor of this office on October 9, 1986 of activities authorized by NRC License No. 37-23341-01 and to the discussions of our findings held by Mr. Scovill with yourself at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Within the scope of this inspection, no violations were observed.

As a result of discussions held at the conclusion of this inspection and with Mr. Greg A. Johnstone at the Region I office on November 13, 1986, we understand that you are presently processing waste plastics for disposal. Further, we understand that you plan to submit the complete procedures for plastic processing to this office and request that License No. 37-23341-01 be amended to authorize this activity.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

Your cooperation with us is appreciated. No reply to this letter is required.

Sincerely,

Original Signed By:
