Edwin I. Hatch Nuclear Plant
Emergency Implementing Procedures Revision

Ladies and Gentlemen:

In accordance with 10 CFR 50, Appendix E, Section V, Southern Nuclear Operating Company hereby submits the following revision to the Plant Hatch Emergency Implementing Procedures (EIPs):

<u>EIP No.</u>	<u>Version</u>	<u>Effective Date</u>
73EP-EIP-001-0	14.3	07/09/02
73EP-EIP-005-0	7.0	07/09/02
73EP-EIP-009-0	7.0	07/09/02
73EP-EIP-011-0	4.0	07/12/02

These revisions incorporate comments identified during our review of the interim compensatory measures (ICMs).

By copy of this letter, Mr. L. A. Reyes, NRC Region II Administrator, will receive two copies of the revised procedures.

Should you have any questions in this regard, please contact this office.

Respectfully submitted,

H. L. Sumner, Jr.

CKB/eb

Enclosures: 73EP-EIP-001-0, Emergency Classification and Initial Actions

SOUTHERN NUCLEAR PLANT E.I. HATCH		DOCUMENT TYPE: EMERGENCY PREPAREDNESS PROCEDURE	PAGE 1 OF 46
DOCUMENT TITLE: EMERGENCY CLASSIFICATION AND INITIAL ACTIONS		DOCUMENT NUMBER: 73EP-EIP-001-0	REVISION/VERSION NO: 14.3
EXPIRATION DATE:	APPROVALS: DEPARTMENT MANAGER JCL DATE 10/28/99		EFFECTIVE DATE: 7/9/2002
N/A	NPGM/POAGM/PSAGM CTM DATE 10/28/99		

1.0 **OBJECTIVE**

This procedure establishes the methodology for emergency classification. Specific Emergency Action Levels (EALs) and minimum initial actions to respond to a given emergency are established in this procedure.

2.0 **APPLICABILITY**

This procedure applies to emergency classification determinations and associated initial responses. This procedure is performed as required.

3.0 **REFERENCES**

- 3.1 10AC-MGR-006-0, Hatch Emergency Plan
- 3.2 73EP-EIP-004-0, Duties of Emergency Director
- 3.3 73EP-EIP-005-0, On-Shift Operations Personnel Emergency Duties
- 3.4 73EP-EIP-015-0, Offsite Dose Assessment

4.0 REQUIREMENTS

4.1 PERSONNEL REQUIREMENTS

- 4.1.1 Any personnel trained and qualified as an Emergency Director (ED) may use this procedure.
- 4.1.2 The Emergency Director may modify emergency plan implementing procedures and staffing to meet the needs of emergency response.
- 4.1.3 Personnel who have received instruction in applicable emergency procedures are required to perform this procedure.
- 4.1.4 Initially, the Emergency Director position is filled by the Superintendent of Shift (SOS). If the SOS is unavailable, then the affected unit's Shift Supervisor (SS) will become the Emergency Director. IF the SOS is unavailable and the event involves both units, the Unit 1 Shift Supervisor (SS) will become the Emergency Director. Any of these persons will assume the position of Emergency Director in the Control Room until a qualified relief, as specified in step 4.1.5, can arrive on site and receive an adequate turnover.
- 4.1.5 Any one of the following persons may assume the Emergency Director (ED) duties after he is given proper turnover from the off going ED.
- Nuclear Plant - General Manager
 - Plant Operations - Assistant General Manager (POAGM)
 - Plant Support - Assistant General Manager (PSAGM)
 - Vice President - Plant Hatch
 - Other qualified Emergency Director

4.2 MATERIAL AND EQUIPMENT

N/A - Not applicable to this procedure

4.3 SPECIAL REQUIREMENTS

- 4.3.1 Portions of this procedure require the results from calculations of projected doses at or beyond the site boundary to determine the appropriate emergency classification. Refer to procedures 73EP-EIP-015-0 and 73EP-EIP-018-0.
- 4.3.2 Portions of this procedure will require actual dose measurements (onsite OR off-site) to determine the appropriate emergency classification. Refer to procedures 73EP-EIP-015-0 and 73EP-EIP-018-0.

5.0 PRECAUTIONS/LIMITATIONS

5.1 PRECAUTIONS

The value of any emergency actions, which may require movement of plant personnel, must be judged against the danger to personnel or nuclear safety.

5.2 LIMITATIONS

5.2.1 The Operating Facility is defined to be areas within the Protected Area and the 230 Kv and 500 Kv switchyards.

5.2.2 Onsite is defined to be anywhere within the Owner Controlled Area.

7.0 PREREQUISITES

This procedure will be utilized for drills, exercises and actual emergencies.

REFERENCE

7.0 PROCEDURE

7.1 EMERGENCY CLASSIFICATION AND INITIAL ACTIONS

7.1.1 Upon notification of an abnormal condition OR observation of abnormal instrument readings, notify the Unit Shift Supervisor immediately.

7.1.2 Confirm abnormal conditions by comparing redundant instrument channels OR other related parameters, observation AND field reports, as applicable.

7.1.3 Assess the abnormal condition and classify the emergency by referring to subsection 7.2, Emergency Classification Chart.

DOCUMENT TITLE:
EMERGENCY CLASSIFICATION AND INITIAL ACTIONS

DOCUMENT NUMBER:
73EP-EIP-001-0

REVISION/VERSION
NO:
14.3

CAUTION

THE REVIEW OF ALL EMERGENCY CLASSES ASSOCIATED WITH A GIVEN CONDITION IS ESSENTIAL. FAILURE TO DO SO COULD RESULT IN A LOWER CLASSIFICATION THAN WARRANTED.

- 7.1.3.1 The Emergency Classification Chart details abnormal plant conditions that meet specific emergency class entrance requirements. These emergency classes are defined, in theory, in steps 7.1.3.1.1 through 7.1.3.1.4.

CAUTION

IN THE UNLIKELY EVENT AN ABNORMAL CONDITION MEETS THE DEFINITIONS STATED IN 7.1.3.1.1 THROUGH 7.1.3.1.4 BUT ARE NOT COVERED IN THE EMERGENCY CLASSIFICATION CHART, OR THE INITIATING CONDITION IS MET BUT EQUIPMENT STATUS PARAMETERS VALUES ARE NOT, THE SOS/ED WILL USE HIS JUDGMENT, BASED ON THE AVAILABLE INFORMATION, TO DECLARE THE APPROPRIATE LEVEL OF EMERGENCY.

7.1.3.1.1 NOTIFICATION OF UNUSUAL EVENT (NUE)

Unusual events are in progress OR have occurred which indicate a potential degradation of the level of safety of the plant. No releases of radioactive material requiring offsite response OR monitoring are expected UNLESS further degradation of safety systems occurs.

7.1.3.1.2 ALERT EMERGENCY

Events are in progress OR have occurred which involve an actual OR potential substantial degradation of the level of safety of the plant. Any releases are expected to be limited to small fractions of the Environmental Protection Agency (EPA) Protective Action Guideline (PAG) exposure levels.

7.1.3.1.3 SITE AREA EMERGENCY

Events are in progress OR have occurred which involve actual OR likely major failures of plant functions needed for protection of the public. Any releases are NOT expected to exceed PAG exposure levels, except near the site boundary.

DOCUMENT TITLE:
EMERGENCY CLASSIFICATION AND INITIAL ACTIONS

DOCUMENT NUMBER:
73EP-EIP-001-0

REVISION/VERSION
NO:
14.3

7.1.3.1.4 GENERAL EMERGENCY

Events are in progress OR have occurred which involve actual OR imminent substantial core degradation OR melting with potential for loss of containment integrity. Releases can be reasonably expected to exceed PAG exposure levels offsite for more than the immediate site area.

7.1.4 IF a potentially declarable emergency exists, inform the SOS immediately. The SOS will evaluate the abnormal condition and operator actions.

7.1.5 IF a declarable emergency exists, the SOS shall assume the duties of the Emergency Director in accordance with 73EP-EIP-004-0, Duties of Emergency Director AND declare the appropriate emergency classification within 15 minutes of the condition requiring the classification.

7.2 EMERGENCY CLASSIFICATION CHART

Refer to the applicable section of the emergency classification chart to assess an abnormal condition and classify the emergency. An index of each emergency action level in the chart is listed on the next page for reference. The key words of an initiating condition are indicated in **BOLD** print. The supporting data / parameters are listed below each emergency action level. The logical connectors (**AND** and **OR**) used in the supporting data / parameters are to be used as described in Technical Specification section 1.0 "Use and Application", part 1.2 "Logical Connectors."

2.0 - RADIOLOGICAL EFFLUENTS

Emergency conditions exist WHEN:

	N U E	A L E R T	S A E	G E N
LIMITS FOR GASEOUS EFFLUENT RELEASES BEYOND THE SITE BOUNDARY HAVE EXCEEDED TS as indicated by either actual field measurements <u>OR</u> effluent monitor readings corresponding to: ≥ 0.057 mR (TEDE) in an hour* (*TS yearly limit divided by the number of hours in a year) <u>OR</u> ≥ 500 mR (TEDE) in a year (TS)				
LIMITS FOR LIQUID EFFLUENTS HAVE BEEN EXCEEDED [as given in the Offsite Dose Calculation Manual (ODCM)] as indicated by Chemistry analysis as follows: ≥ 1.5 mR to the total body in a quarter <u>OR</u> ≥ 3.0 mR to the total body in a year				
A GASEOUS EFFLUENT RELEASE IS UNDERWAY WITH OFFSITE DOSE RATES BEYOND THE SITE BOUNDARY , as indicated by either field measurements <u>OR</u> effluent monitor readings corresponding to: ≥ 0.57 mR (TEDE) in an hour** (** 10 times the TS yearly limit divided by the number of hours in a year.) <u>OR</u> ≥ 5000 mR (TEDE) in a year (10 X T.S.)				

→ → [CONTINUE TO THE NEXT PAGE] → →

2.0 - RADIOLOGICAL EFFLUENTS (continued)

Emergency conditions exist WHEN:

N	A	S	G
U	L	A	E
E	E	E	N
	R		
	T		

NOTE

Adverse meteorological conditions is defined as Stability Class F AND 1m/sec (\approx 2 mph) wind speed, OR inclement weather.

A GASEOUS EFFLUENT RELEASE IS UNDERWAY WITH OFFSITE DOSE AT THE SITE BOUNDARY,
as indicated by either field measurements OR effluent monitor readings (using adverse
meteorological conditions) corresponding to:

≥ 50 mR (TEDE) in an hour for $> 1/2$ hr but < 1000 mR (TEDE) in an hour

OR

≥ 500 mR (TEDE) in an hour for 2 min. but < 1000 mR (TEDE) in an hour

OR

≥ 250 mR (CDE thyroid) in an hour for 1/2 hr but < 5 REM (CDE thyroid) in an hour

OR

≥ 2500 mR (CDE thyroid) in an hour for 2 min. but < 5 REM (CDE thyroid) in an hour

DOSE BEYOND THE SITE BOUNDARY IS PROJECTED TO BE > EPA PAGs based on dose projections from plant parameters as follows:

> 1 REM (TEDE)

OR

≥ 5 REM (CDE thyroid)

LOSS OF AC POWER

6.0 - LOSS OF ONSITE DC POWER

Emergency conditions exist WHEN:

A LOSS OF ALL VITAL ONSITE DC POWER OCCURS and is indicated as follows:

N	A	S	G
U	L	A	E
E	E	E	N
	R		
	T		

A LOSS OF ALL VITAL ONSITE DC POWER OCCURS FOR \leq 15 MINUTES as indicated by:

Low voltage AND/OR fuse trouble on ALL the affected unit's 125v/250v station batteries

AND

Low voltage **AND/OR** fuse trouble on the affected unit's 125v D/G batteries (including the swing D/G)

A LOSS OF ALL VITAL ONSITE DC POWER OCCURS FOR > 15 MINUTES as indicated by:

Low voltage AND/OR fuse trouble on ALL the affected unit's 125v/250v station batteries

AND

Low voltage **AND/OR** fuse trouble on the affected unit's 125v D/G batteries (including the swing D/G)

END

LOSS OF ONSITE DC POWER

7.0 - LOSS OF CONTAINMENT

Emergency conditions exist WHEN:

N	A	S	G
U	L	A	E
E	E	E	N

NOTE

NUE is to be declared upon commencing Load Reduction.

A LOSS OF PRIMARY OR SECONDARY CONTAINMENT INTEGRITY OCCURS as indicated by the inability to meet any one of the requirements WITHIN the time limit established by the applicable unit's TS.

See Section 11.0, Hazards to Plant Operation, for determination of Alert Classification.

See Section 11.0, Hazards to Plant Operation for determination of Site Area Emergency Classification.

See Section 22.0, Multiple Symptoms and Other Conditions, for determination of General Emergency Classification.

REFERENCE

7.0 PROCEDURE

7.1 SUPERINTENDENT OF SHIFT (SOS)

	NUE	ALERT	SITE- AREA	GENERAL
7.1.1 Review the event and classify the emergency in accordance with 73EP-EIP-001-0, Emergency Classification and Initial Actions.	X	X	X	X
7.1.2 Assume the duties of the ED in accordance with 73EP-EIP-004-0, Duties of Emergency Director.	X	X	X	X
7.1.3 After turnover of ED duties, perform the following:				
7.1.3.1 Direct operation of the plant to mitigate consequences of the event and to restore to a safe operating condition.	X	X	X	X
7.1.3.2 Analyze plant conditions and assist the ED with reclassifications and protective action recommendations.	X	X	X	X
7.1.3.3 Advise the ED and TSC Manager on degrading plant conditions, initiation of any release or changes in the magnitude of any release as soon as practical.	X	X	X	X
7.1.3.4 Ensure communications is established and maintained with the emergency response facilities (ERFs), NRC, and Security, as appropriate.		X	X	X

7.2 SUPERINTENDENT OF SHIFT (SOS) (CONT'D)

	NUE	ALERT	SITE- AREA	GENERAL
7.1.3.5 IF the main access road can not be used as a site exit route, coordinate with the Emergency Director and Security to open the alternate site exit route(s) to allow evacuating personnel to leave the plant site.	X	X	X	X
7.1.3.6 IF the following conditions are present which may prevent facility activation, protected area evacuation or site evacuation, <u>THEN</u> consult with the ED and Security prior to dispatching Control Room personnel, making PA announcements or augmenting on-shift staffing: <ul style="list-style-type: none">• security events• severe weather conditions• other hazards that affect personnel safety		X	X	X

END OF 7.1, SUPERINTENDENT OF SHIFT (SOS)

7.2 SHIFT SUPERVISOR (SS)

		NUE	ALERT	SITE- AREA	GENERAL
7.2.1	IF the SOS is unavailable or incapacitated, assume the duties of SOS and perform the SOS duties in accordance with section 7.1 of this procedure. IF available, assign any qualified SRO to assume the unit SS duties.	X	X	X	X
7.2.2	Direct operation of the plant to mitigate consequences of the event and to restore to a safe operating condition.	X	X	X	X
7.2.3	Activate emergency response teams, IF necessary, by contacting the TSC (or the Health Physics office and other support departments IF the TSC is not activated) and provide directions regarding needed actions.	X	X	X	X
7.2.4	Assist in the performance of prompt offsite dose assessments, as needed.	X	X	X	X
7.2.5	Advise the SOS on any degradation of plant equipment, onset of a release, and changes in release magnitude as soon as possible.	X	X	X	X
7.2.6	Establish communications with the ERFs, Plant Security, the ED and the NRC as requested by SOS.		X	X	X

END OF 7.2, SHIFT SUPERVISOR (SS)

7.3 SHIFT SUPPORT SUPERVISOR (SSS)

	NUE	ALERT	SITE- AREA	GENERAL
7.3.1 Maintain accountability of all SOs dispatched from the Control Room.		X	X	X

NOTE:

All entries to areas with higher than normal radiological conditions must be dispatched from the OSC.

	NUE	ALERT	SITE- AREA	GENERAL
7.3.2 Ensure SOs are logged on the Operations rounds blanket RWP to track their dose.		X	X	X

NOTE:

SOs can be dispatched with no limitations provided radiological conditions are not degraded.

	NUE	ALERT	SITE- AREA	GENERAL
7.3.3 Dispatch SOs to perform various tasks to assist in mitigation of an emergency condition.		X	X	X
7.3.4 Coordinate with Control Room Operators to monitor ARM readings and plant conditions for the location where SOs have been dispatched. <u>IF</u> conditions change, <u>THEN</u> withdraw all personnel dispatched to that location.		X	X	X
7.3.5 Send extra SOs to the OSC as conditions allow. SOs for shutdown activities will remain in the Control Room.		X	X	X

END OF 7.3, SHIFT SUPPORT SUPERVISOR (SSS)

7.4 CONTROL ROOM OPERATOR

		NUE	ALERT	SITE- AREA	GENERAL
7.4.1	Take actions to place the plant in a safe condition in accordance with annunciator response procedures, emergency operating procedures and Technical Specifications.	X	X	X	X
7.4.2	Periodically report plant status to the SS.	X	X	X	X
7.4.3	Notify the SS or SOS of any degradation to plant equipment.	X	X	X	X
7.4.4	Perform prompt offsite dose assessment calculations in accordance with 73EP-EIP-018-0, Prompt Offsite Dose Assessment, as required. Refer to "Prerequisites" section of 73EP-EIP-018-0 to determine necessity to perform prompt offsite dose assessment calculation. Notify the SOS or SS of the onset of a release or any change in the magnitude of release. When the TSC is activated, turnover dose assessment duties to the TSC and exit procedure 73EP-EIP-018-0.		X	X	X
7.4.5	Notify the SSS of changes in plant conditions, radiological conditions or radiological releases.		X	X	X

7.4 CONTROL ROOM OPERATOR (CONT'D)**CAUTION:**

CHANGES IN WIND DIRECTION MAY REQUIRE CHANGING RALLY POINTS AND EVACUATION ROUTES; THEREFORE, USE OF AVERAGE WIND DIRECTION IS ACCEPTABLE AND DESIRED. BE AWARE OF CHANGING CONDITIONS.

		NUE	ALERT	SITE- AREA	GENERAL
7.4.6	Complete form TRN-0144, Emergency Page Announcement Guide, filling in the required sections.	X	X	X	X
7.4.7	Obtain concurrence from the SOS for PA announcements being made for the following circumstances: <ul style="list-style-type: none">• security events• severe weather conditions• other hazards that affect personnel safety.	X	X	X	X

NOTE:

The purpose of making announcements is to inform plant personnel of an event or change in conditions that warrants a response. The timeliness and accuracy of the announcement will have a direct effect on the implementation of that response. Announcements are normally concise statements containing sufficient detail to elicit the appropriate response.

		NUE	ALERT	SITE- AREA	GENERAL
7.4.8	Sound the applicable warning tone, <u>THEN</u> make the appropriate announcement and, as directed by the SOS or SS and using the applicable section of TRN-0144, Emergency Page Announcement Guide. The appropriate announcement/tone will be made as soon as practicable upon initial emergency declaration, and every thirty (30) minutes for the first two (2) hours of the declared emergency. After the first two (2) hours, repeat the announcement/ tone as directed by the SS.	X	X	X	X

END OF 7.4, CONTROL ROOM OPERATOR

7.5 SYSTEM OPERATOR (SO)

		NUE	ALERT	SITE- AREA	GENERAL
7.5.1	Complete current assigned task <u>OR</u> restore equipment to a safe condition and report status to the Control Room.		X	X	X
7.5.2	Report to the SSS in the Control Room and remain under his direction until dispatched to the OSC.		X	X	X

NOTE:

Unusual circumstances may require personnel to immediately terminate work activities and exit the area. These circumstances include, but are not limited to:

- an ARM alarms in the work area
- the worker's digital dosimeter alarms, or
- a radiological event is announced and personnel are directed to evacuate the area

		NUE	ALERT	SITE- AREA	GENERAL
7.5.3	<u>IF</u> unusual circumstances occur in or near your present location, <u>THEN</u> terminate your work activities, exit the area and report back to the SSS in the Control Room.		X	X	X

END OF 7.5, SYSTEM OPERATOR (SO)

7.10	EMERGENCY NEWS CENTER (ENC) ACCESS CONTROL	10
7.11	ADDITIONAL SECURITY POSTS	11
7.12	GATE 17 ACCESS CONTROL	11
7.13	ACCOUNTABILITY	12

2.0 APPLICABILITY

This procedure is applicable to responses taken by the Nuclear Security Department to declared emergencies, which implement the Hatch Emergency Plan. This procedure is performed as required.

3.0 REFERENCES

- 3.1 10AC-MGR-006-0, Hatch Emergency Plan
- 3.2 Edwin I. Hatch Unit 1 & Unit 2 Emergency Plan, Section E
- 3.3 Emergency Response Facility Position Matrix
- 3.4 FULL-SIZE FORM
 - TRN-0147, Plant Hatch Owner-Controlled Area

4.0 RESPONSIBILITIES

4.1 PERSONNEL REQUIREMENTS

- 4.1.1 Security Personnel who have received instruction in applicable emergency implementing procedures are required to perform this procedure.
- 4.1.2 Off-duty Nuclear Security officers may be called in to man the various posts/patrols, including access control at the Emergency News Center.

4.2 MATERIAL AND EQUIPMENT

N/A - Not applicable to this procedure

4.3 SPECIAL REQUIREMENTS

N/A - Not applicable to this procedure

5.0 PRECAUTIONS/LIMITATIONS

5.1 PRECAUTIONS

Uncertain or higher than normal radiological conditions may be encountered during actual emergencies. Maintain radiation exposure ALARA

5.2 LIMITATIONS

N/A - Not applicable to this procedure

6.0 PREREQUISITES

A declared emergency OR an emergency drill/exercise must exist before using this procedure.

REFERENCE**7.0 PROCEDURE****NOTE:**

The Emergency Response Facility (ERF) Position Matrix may be used to determine those individuals who may assume the following emergency response positions.

7.1 EOF SECURITY MANAGER

	NUE	ALERT	SITE- AREA	GENERAL
7.1.1 Report to EOF to assume the position of EOF Security Manager.		X	X	X
7.1.2 Ensure Security staff personnel for the TSC, OSC and EOF are dispatched as required. Additional support persons may be brought in to assist the EOF Security Manager, as needed.		X	X	X
7.1.3 Contact the Public Information (PI) Director to determine when Security personnel will be needed for access control at the Emergency News Center complex. Refer to the Emergency Call List for applicable phone number(s).		X	X	X
7.1.4 Inform the Security Shift Supervisor when Security personnel will be needed at the Emergency News Center complex.		X	X	X
7.1.5 Coordinate security activities as requested by the Emergency Director or EOF Manager.		X	X	X

NOTE:

The Emergency Director may order evacuation of non-essential personnel at any emergency classification.

	NUE	ALERT	SITE- AREA	GENERAL
7.1.6 Establish contact with local law enforcement representatives (in the applicable County Emergency Operations Centers) to coordinate the release of non-essential personnel from the plant site, as necessary.		X	X	X
7.1.7 Evaluate the event and make recommendations to Emergency Response Management, as required.		X	X	X

END OF 7.1, EOF SECURITY MANAGER

7.2 TSC SECURITY SUPERVISION

	NUE	ALERT	SITE- AREA	GENERAL
7.2.1 Report to the TSC to assume the position of TSC Security Supervisor.		X	X	X
7.2.2 Ensure that actions taken by Security shift supervisor are appropriate.		X	X	X
7.2.3 Confer with TSC HP/Chemistry Supervision concerning radiological conditions as they pertain to Security personnel assignments.		X	X	X
7.2.4 Ensure radiological condition information is relayed to applicable security posts/patrols.		X	X	X
7.2.5 Report protected area accountability and evacuation status to the TSC Manager and EOF Security Manager after receipt of this information from the Security shift supervisor.		X	X	X
7.2.6 As appropriate, evacuate and/or relocate security posts/patrols based on radiological conditions.			X	X
7.2.7 Interface with EOF Security Manager to direct emergency response activities.			X	X

END OF 7.2, TSC SECURITY SUPERVISION

7.3 SECURITY SHIFT SUPERVISOR

	NUE	ALERT	SITE- AREA	GENERAL
7.3.1 Ensure all Nuclear Security personnel are notified of the emergency and are accounted for.	X	X	X	X
7.3.2 Direct an NSO to activate the Simulator & Skills Buildings' public address system. This may be activated either in the Secondary Alarm Station (SAS) or in the Simulator Building mechanical room (near the Cafeteria).	X	X	X	X
7.3.3 Ensure that Nuclear Security Officers (NSOs) are available to escort emergency vehicles and expedite access to the plant, as necessary.	X	X	X	X
7.3.4 Ensure the applicable sections of the Emergency Call List are initiated.		X	X	X
7.3.5 Direct Alarm Station Operator to relay radiological condition information to applicable security posts/patrols, as directed by TSC Security Supervisor.		X	X	X
7.3.6 Direct two NSOs to report to the EOF to initiate access control. Refer to section 7.8 for EOF Access Control instructions.		X	X	X
7.3.7 When directed, dispatch a NSO to the Emergency News Center (ENC) to initiate access control. Refer to section 7.10 for ENC Access Control instructions.		X	X	X
7.3.8 Dispatch NSOs to the owner-controlled area to inform personnel of an emergency. Efforts should be made to notify persons in public areas first, <u>THEN</u> all other locations, as identified in form TRN-0147, Plant Hatch Owner Controlled Area. Guidance is also provided in form TRN-0147 on information to provide to personnel in these locations. NSOs must ensure the main recreational area gate and the contractor access road gate are secured so that site access is restricted to the main access road.		X	X	X

7.3 SECURITY SHIFT SUPERVISOR (CONT'D)**NOTE:**

The Emergency Director may order evacuation of non-essential personnel at any emergency classification.

	NUE	ALERT	SITE- AREA	GENERAL
7.3.9 Provide crowd control at rally points, <u>IF</u> necessary.	X	X	X	X
7.3.10 <u>WHEN</u> advised by the Emergency Director <u>OR</u> Control Room, dispatch roving patrol to open and man Gate 17 for protected area evacuation. Dispatch additional NSOs to assist at Gate 17, as necessary.	X	X	X	X
7.3.11 Ensure evacuation instructions are conveyed to evacuating personnel by NSOs at the PESB <u>AND/OR</u> Gate 17 rally points, as necessary.	X	X	X	X
7.3.12 <u>IF</u> the main access road can not be used as a site exit route, coordinate with the Superintendent of Shift /Emergency Director (SOS/ED) to open the alternate site exit route(s) to allow evacuating personnel to leave the plant site.	X	X	X	X
7.3.13 Dispatch two NSOs to initiate river patrol.			X	X
7.3.14 Dispatch NSO to the TSC and NSO(s) to OSC for access control <u>IF</u> the TSC and OSC card readers fail to operate. Refer to section 7.7 for TSC & OSC Access Control instructions.		X	X	X
7.3.15 Compile all accountability reports from locations within the Protected Area. Attempt to contact those that have not reported, including determination of the last known location of unaccounted personnel. Refer to 7.13 for instructions to perform accountability.		X	X	X
7.3.16 Report accountability results to the TSC Security Supervisor as soon as possible.		X	X	X
7.3.17 Report to the TSC Security Supervisor for further instructions.		X	X	X

END OF 7.3, SECURITY SHIFT SUPERVISOR

7.4 SECURITY POST 200 CAS AND SAS

	NUE	ALERT	SITE- AREA	GENERAL
7.4.1 Activate the Emergency Accountability System and <u>THEN</u> run an accountability report on the security computer. Forward this report to the Security shift supervisor as soon as possible.		X	X	X
7.4.2 Notify all posts and patrols of emergency and account for all Nuclear Security personnel by using a radio or other means.	X	X	X	X
7.4.3 Initiate applicable sections of the Emergency Call List, as directed.		X	X	X
7.4.4 When directed by the Security shift supervisor, notify roving patrol to open and man Gate 17 for protected area evacuation. Dispatch additional NSOs to assist at Gate 17, as necessary.		X	X	X
7.4.5 Relay radiological condition information to applicable security posts/patrols, as directed.		X	X	X

END OF 7.4, SECURITY POST 200 CAS AND SAS

7.5 SECURITY POST 200 CHARLIE [PLANT ENTRY SECURITY BUILDING (PESB)]

	NUE	ALERT	SITE- AREA	GENERAL
7.5.1 Restrict personnel access to the following groups: Southern Company personnel, NRC personnel, and other personnel as authorized by the Emergency Director.		X	X	X
7.5.2 Prepare to assist with protected area evacuation.	X	X	X	X
7.5.3 IF the computer accountability system is inoperable, perform accountability per subsection 7.13 of this procedure.		X	X	X

END OF 7.5, SECURITY POST 200 CHARLIE (PESB)]

7.6 SECURITY POST 200 BRAVO (GATE 1)

	NUE	ALERT	SITE- AREA	GENERAL
7.6.1 Restrict personnel access to the following groups: Southern Company personnel, NRC personnel, and other personnel as authorized by the Emergency Director.		X	X	X
7.6.2 Direct members of the press and the public to the Emergency News Center.		X	X	X

END OF 7.6, SECURITY POST 200 BRAVO (GATE 1)

7.7 TSC AND OSC ACCESS CONTROL**NOTE:**TSC and OSC access control are required only IF card readers are inoperable.

	NUE	ALERT	SITE- AREA	GENERAL
7.7.1 Restrict personnel access to the following groups: Southern Company personnel, NRC personnel, and other personnel as authorized by the Facility (TSC or OSC) Manager.		X	X	X
7.7.2 Log personnel entering <u>OR</u> leaving the facility.		X	X	X
7.7.3 Report the names and security badge numbers of facility (TSC or OSC) personnel to the Supervisor Nuclear Security (Shift) as soon as possible.			X	X

END OF 7.7, TSC AND OSC ACCESS CONTROL**7.8 EOF ACCESS CONTROL**

	NUE	ALERT	SITE- AREA	GENERAL
7.8.1 Restrict personnel access to the following groups: Southern Company personnel, NRC personnel, and other personnel as authorized by the EOF Manager.		X	X	X
7.8.2 Log personnel entering <u>OR</u> leaving the EOF.		X	X	X

END OF 7.8, EOF ACCESS CONTROL

7.9 RIVER PATROL

	NUE	ALERT	SITE- AREA	GENERAL
7.9.1 Attach boat to security vehicle, proceed to boat ramp and launch boat.			X	X
7.9.2 NSOs will man the boat and patrol the river adjacent to the plant to inform personnel of the declared emergency and request they leave the plant vicinity.			X	X

END OF 7.9, RIVER PATROL**7.10 EMERGENCY NEWS CENTER (ENC) ACCESS CONTROL**

	NUE	ALERT	SITE- AREA	GENERAL
7.10.1 When directed, NSOs will report to the Emergency News Center (ENC) complex to establish access control. Contact ENC Facilities/Operations Coordinator upon arrival for instructions.		X	X	X
7.10.2 Direct personnel requesting entry to present a picture ID and state their reason for requesting access. Log all personnel entering the facility and issue the appropriate identification badge.		X	X	X
7.10.3 Restrict access of unauthorized personnel to the Main ENC media building.		X	X	X

END OF 7.10, ENC ACCESS CONTROL

DOCUMENT TITLE:
NUCLEAR SECURITY DUTIESDOCUMENT NUMBER:
73EP-EIP-009-0REVISION/VERSION
NO:
7.0**7.11 ADDITIONAL SECURITY POSTS**

	NUE	ALERT	SITE- AREA	GENERAL
"Hotel", "Golf", "Foxtrot", "Echo", "Sierra" and all other security posts not specifically mentioned will perform duties as normal during drills, exercises or actual emergencies unless notified otherwise by the Security Shift Supervisor.			X	X

END OF 7.11, ADDITIONAL SECURITY POSTS**7.12 GATE 17 ACCESS CONTROL****NOTE:**

The Emergency Director may order evacuation of non-essential personnel at any emergency classification.

	NUE	ALERT	SITE- AREA	GENERAL
<u>IF</u> the rally point is established at this location, collect the protected area badges of the personnel leaving the protected area. Collected protected area badges will be brought to the PESB to log personnel out of the protected area. <u>IF</u> the security computer is not operable, <u>THEN</u> Security will compare the collected badges to the most recent accountability report to determine those personnel remaining in the protected area.	X	X	X	X

END OF 7.12, GATE 17 ACCESS CONTROL

7.13 ACCOUNTABILITY**NOTE:**

The Emergency Director may order evacuation of non-essential personnel at any emergency classification.

	NUE	ALERT	SITE- AREA	GENERAL						
7.13.1 Security will ensure that accountability is achieved within 30 minutes of declaration of a Site Area Emergency, General Emergency, or Protected Area evacuation order. Accountability is achieved when all personnel within the Protected Area <u>AND</u> the Vital Area are identified by name or badge number as being in the Protected <u>AND/OR</u> Vital Area at the time of the accountability check. Personnel logged into emergency accountability regions (i.e., control room, OSC, and TSC), after accountability is initiated, will not appear on the emergency accountability report.		X	X	X						
7.13.2 Accountability will be conducted in accordance with the following: <table border="1"><tr><td>IF Security System Computer (SSC) is: Operational</td><td><u>AND</u> Accountability Function is: Operational</td><td><u>THEN:</u> Run an Accountability report. The Site-Specific Alarm Station Operators Manual will be utilized for specific steps to access and utilize the accountability function.</td></tr><tr><td>Operational</td><td><u>NOT</u> Operational</td><td>Run an ALL REGION ENROLLMENT report.</td></tr></table>	IF Security System Computer (SSC) is: Operational	<u>AND</u> Accountability Function is: Operational	<u>THEN:</u> Run an Accountability report. The Site-Specific Alarm Station Operators Manual will be utilized for specific steps to access and utilize the accountability function.	Operational	<u>NOT</u> Operational	Run an ALL REGION ENROLLMENT report.		X	X	X
IF Security System Computer (SSC) is: Operational	<u>AND</u> Accountability Function is: Operational	<u>THEN:</u> Run an Accountability report. The Site-Specific Alarm Station Operators Manual will be utilized for specific steps to access and utilize the accountability function.								
Operational	<u>NOT</u> Operational	Run an ALL REGION ENROLLMENT report.								
7.13.3 In the event the Security Access Control system is not operable, Security will collect the protected area badge of each evacuating person. Security will compare the collected badges to the most recent accountability report to determine those personnel remaining in the protected area.		X	X	X

A declared emergency OR an emergency drill/exercise must exist before using this procedure.

REFERENCE

7.0 PROCEDURE

7.1 INVOLVED PERSONNEL

	NUE	ALERT	SITE- AREA	GENERAL
7.1.1 Report incident status to the Control Room and take actions to limit the incident, <u>IF</u> possible. Retreat to an unaffected area.	X	X	X	X
7.1.2 Report to the Health Physics Office for contamination surveys and decontamination, <u>IF</u> applicable.	X			
7.1.3 Contact Health Physics in the Operations Support Center (OSC) for contamination surveys and decontamination.		X	X	X

END OF 7.1, INVOLVED PERSONNEL

7.2 NON-INVOLVED PERSONNEL (INSIDE THE PROTECTED AREA)**NOTE:**

Personnel actions (i.e., emergency response facility activation, escorting visitors to the PESB, evacuation from the site, etc.) may be delayed as a result of a security event, severe weather conditions or other hazards to personnel safety.

	NUE	ALERT	SITE- AREA	GENERAL
7.2.1 Observe the Public Address (PA) announcements and/or warning signals for emergency information (i.e., declaration, upgrades in severity and evacuation orders). Stay clear of affected areas.	X	X	X	X
7.2.1.1 Remain at your present location until further notice <u>IF</u> a security emergency is occurring.	X	X	X	X
7.2.2 Stand by for an escalation in emergency classification and continue normal work activities until advised otherwise.	X			
7.2.3 Emergency Response Organization members will report to assigned facility [Technical Support Center (TSC), Operations Support Center (OSC) or Emergency Operations Facility (EOF)].		X	X	X
7.2.4 Escort all escorted personnel to Plant Entry Security Building (PESB) for processing out. These persons will be directed to report to the Simulator cafeteria and await further instructions on actions to be taken.		X	X	X
7.2.5 Department supervisory personnel will account for personnel under their supervision. The names of personnel who are unaccounted must be immediately reported to Security at the PESB.		X		
7.2.6 Secure your work location. <u>IF</u> in a contaminated area, follow normal undressing and frisking procedures as time allows. <u>THEN</u> , go to your reporting area and await further instructions.		X		
7.2.7 Secure your work location. <u>IF</u> in a contaminated area, follow normal undressing and frisking procedures as time allows.			X	X

DOCUMENT TITLE: ASSEMBLY, ACCOUNTABILITY AND EVACUATION	DOCUMENT NUMBER: 73EP-EIP-011-0	REVISION/VERSION NO: 4.0

7.2 NON-INVOLVED PERSONNEL (INSIDE THE PROTECTED AREA) (CONT'D)

NOTE :	<ul style="list-style-type: none"> The Emergency Director may order evacuation of non-essential personnel at any emergency classification. Unless otherwise specified, the rally points designated for use are the Plant Entry Security Building (PESB) or Gate 17 (Northwest section of the protected area).
---------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	NUE	ALERT	SITE- AREA	GENERAL
7.2.8 Leave the protected area, using the designated rally point, as directed by PA announcement and/or Nuclear Security personnel. Turn in your protected area badge, <u>IF</u> directed to do so by Security personnel. Submit to radiological monitoring as directed by the Rally Point Team. Report to the Simulator cafeteria and await further instructions on actions to be taken.	X	X	X	X
7.2.9 Leave the plant site using specified site exit routes as directed by PA announcement and/or Nuclear Security personnel. <u>IF DIRECTED</u> , report to the appropriate State Reception Center for contamination monitoring <u>IF</u> a radiological release is underway <u>AND</u> radiological monitoring at the plant site is not feasible. Areas designated as State Reception Centers are shown in Attachments 1 & 2.	X	X	X	X

END OF 7.2, NON-INVOLVED PERSONNEL (INSIDE THE PROTECTED AREA)

7.3 NON-INVOLVED PERSONNEL (OUTSIDE THE PROTECTED AREA)**NOTE:**

Personnel actions (i.e., emergency response facility activation, escorting visitors to the PESB, evacuation from the site, etc.) may be delayed as a result of a security event, severe weather conditions or other hazards to personnel safety.

	NUE	ALERT	SITE- AREA	GENERAL
7.3.1 When notified, Emergency Response Organization members will report to their assigned facility (TSC, OSC, or EOF).		X	X	X
7.3.2 IF in areas with a PA system, personnel will observe PA announcements/ warning tones and stay clear of affected areas.	X	X	X	X
7.3.3 IF in areas without a PA system, personnel will observe instructions provided by Security, stay clear of affected areas, secure their work location and THEN report to the Simulator Building cafeteria for further instructions.		X	X	X

NOTE:

- The Emergency Director may order evacuation of non-essential personnel at any emergency classification.
- Unless otherwise specified, the rally points designated for use are the Plant Entry Security Building (PESB) or Gate 17 (Northwest section of the protected area).

	NUE	ALERT	SITE- AREA	GENERAL
7.3.4 Leave the plant site using specified site exit routes as directed by PA announcement and/or Nuclear Security personnel. IF DIRECTED, report to the State Reception Center IF DIRECTED, report to the appropriate State Reception Center for contamination monitoring IF a radiological release is underway AND radiological monitoring at the plant site is not feasible. Areas designated as State Reception Centers are shown in Attachments 1 & 2.		X	X	X
