Title: Financial Management Advice and Guidance

Technical Monitor: Robert E. Rakowski, OCFO - (301) 415-7340  
Designated Alternates: Anthony C. Rossi, OCFO - (301) 415-7379  
Barbara K. Gusack, OCFO - (301) 415-6054

Background

Since the passage of the Chief Financial Officers Act of 1990, the Nuclear Regulatory Commission (NRC) must comply with new Federal financial accounting standards and reporting requirements. The Office of the Chief Financial Officer (OCFO) of the NRC requires financial management advice and guidance concerning accounting and audit issues that affect the NRC's annual financial statements, accounting policy, and operations. The OCFO also seeks assistance in the preparation of the annual financial statements and compilation documentation, account reconciliations, and other general financial and accounting support tasks.

Objective

The objective of this task order is to obtain financial management advice and guidance concerning accounting and audit issues that affect the NRC's annual financial statements, accounting policy and operations. Contractor assistance will include the review of exposure drafts and revisions to Statements of Federal Financial Accounting Standards (SFFAS); the NRC Accounting Policy Manual; OMB Form and Content for Agency Financial Statements; implementing guidance published by federal oversight agencies; and operating procedures, etc. In addition, the Contractor will assist NRC in determining whether the fee charges for certain NRC services are appropriate by assessing the management controls and quality assurances for determining Part 170 Quarterly Billings. The review is limited to staff-hour licensing review costs incurred under TAC's issued during the period November 4, 2001 to March 23, 2002, by the office of Nuclear Reactor Regulation (NRR).

Work Requirements

The contractor shall provide qualified personnel to complete the following tasks:

- A. Financial Management Advice and Guidance:
  - 1. Review exposure drafts and revisions to Statements of Federal Financial Accounting Standards (SFFAS); the NRC Accounting Policy Manual; OMB

Form and Content for Agency Financial Statements; implementing guidance published by federal oversight agencies; and operating procedures, etc.

Upon completion of the review mentioned above, advise the Division of Accounting and Finance (DAF) concerning audit issues that affect the NRC's annual financial statements, accounting policy and operations.

2. Provide written recommendations on how to correct identified financial weakness (e.g., audit findings and internal controls), advise and assist with the implementation of corrective actions. The NRC Project Officer or designated alternate may determine that written recommendations are unnecessary and an oral response is adequate.
3. Assist NRC's DAF with preparing accounting information requested by OMB as it related to the annual financial statement and accountability report.
4. Provide biweekly progress reports commencing with the month of October 2001 on all active task orders and monthly fixed priced areas that include commercial payments, federal payment voucher tracking and follow-up, and debt collection. The contractor shall follow the attached form for preparing the biweekly progress reports; however, this format is subject to change at the discretion of the NRC Project Officer.

The biweekly progress shall contain accomplishments, problems encountered, and additional work projects.

5. At the beginning of each month, provide a monthly listing, commencing with the month of October 2001, of all contractor staff, their current assignments, scheduled absences for the month, the reason for the absence, and the names of the individual to perform work in the person's absence.
- B. Assessment of Management Controls and Quality Assurance Measures for Part 170 Quarterly Bills.
1. Obtain an understanding of the established controls and procedures at NRR and DAF and perform an assessment to determine if the established procedures are adequate to provide reasonable assurance that part 170 costs related to licencing activities of the nuclear reactor program are properly recorded and billed.
  2. Perform tests to ensure that established procedures are operational.

3. Interview NRC staff involved in the process to ascertain any billing anomalies that have come to the attention of management.
4. Perform statistical sampling (the sampling size will be determined by NRC at a later date) of new TAC's issued between November 4, 2001 and March 23, 2002 to assess the following facets of the process:
  1. Is the TAC properly coded as billable or non-billable?
  2. Is the billable/non-billable TAC status properly recorded in TAC data base that feeds RITS?
  3. Are the part 170 hours reflected in RITS supported by signed and approved time records?
  4. For billable TAC's was the billing to the docket/license correct?
  5. For non-billable TAC's were the hours excluded from the invoices generated?

#### Period of Performance

Modification No. 4 to Task Order No. 16 shall commence on the effective date of the modification and expire on September 30, 2002.

#### Deliverables

The contractor shall provide written advice, guidance and recommendations that are clear, organized and concise. The Project Officer or designated alternates may determine that written advice, guidance, and recommendations are unnecessary and an oral response is adequate for a particular task.

Provide a biweekly progress report on all active task orders and the monthly fixed price areas of the contract.

Provide a monthly listing of contractors staff and pertinent information as described under item No.5 above.

Provide in initial draft of observations and conclusions regarding the Assessment of Management Controls and Quality Assurance Measures for Part 170 Quarterly Bills by July 31, 2002.

Provide a final report of observations and conclusions by September 1, 2002.

Meetings

The contractor shall attend approximately five (5) status meetings at NRC's Two White Flint North Building located at 11545 Rockville Pike, Rockville, Maryland. The date and time of each meeting will be coordinated between the contractor and the NRC Project Officer or designated alternates.

NRC Furnished Materials/Equipment

The NRC shall provide the contractor with the following items for use under this task order:

- ▶ Computer reports, financial and accounting documents, and other documentation relevant to this task order.
- ▶ Personal computers, calculators, telephones, copy and facsimile machines will be provided to certain on-site contractor staff for support of this task order.

Progress Payments

Payments under this task order shall be in accordance with contract clause B.24, "Progress Payments - Commercial Items."
