B.1 CONSIDERATION AND OBLIGATION--FIRM FIXED PRICE (JUN 1988)

The firm fixed price of this contract is \$101,591.78.

SECTION B - STATEMENT OF WORK

NRC-10-02-151

B.1 OBJECTIVE:

The purpose of this contract is to provide the U.S. Nuclear Regulatory Commission (NRC) with supplemental Administrative Support Services.

B.2 SCOPE:

The NRC requires the services of a Contractor to provide coordination and support for a wide variety of on-site Administrative Services in support of the NRC's Headquarters location in Rockville, MD.

B.3 SCOPE OF WORK

The Administrative Support services obtained under this contract shall be performed in accordance with the terms and conditions stated in this contract and any additional provisions included in the guidance provided in Attachment-A for each type of service (function). Each NRC "Task Area" will identify the period for performance and the scope of the services, including the minimum requirements for acceptable performance of those specific services. To assist the Contractor with understanding the level of activity for each Task Area, NRC has also provided the approximate average staffing level used in the past to provide the acceptable level of service specified for that task area.

In Attachment-A, NRC has provided a copy of the current procedures used by NRC to accomplish each of the functions covered by this contract. These step-by-step instructions also include a copy of the standard forms and other related information for processing/documenting each of these services.

The Contractor shall perform each Task Area in accordance with the procedures stated in Attachment-A. However, if the Contractor identifies a more efficient alternative method to process and document any of these services (while maintaining the same or higher service level, i.e., service quality, quantity and accuracy of records), the Contractor may request approval from the NRC Project Officer (NRC-PO) for the Contractor to modify Attachment-A to deviate from the current procedure for that service, in order to implement the new procedure. If the NRC-PO approves the change, the Contractor shall immediately update Attachment-A to reflect the change and proceed to perform under the new procedure. The Contractor shall ensure Attachment-A is continuously updated to reflect the current procedures for all services performed under this contract and the Contractor shall ensure that all services are performed in accordance with the current procedures in Attachment-A and this contract.

In the event the guidance/procedures in Attachment-A does not cover a situation that occurs during performance of any services under this contract, the Contractor shall request any specific, task-oriented verbal guidance, necessary to accomplish the service, from the NRC-PO. The Contractor shall document this guidance provided by the NRC-PO in the appropriate section of Attachment-A, in order to prevent the need for the NRC-PO to provide repetitive guidance for responding to a recurrence of the same or similar situation.

SECTION B - STATEMENT OF WORK

NRC-10-02-151

B.4 GENERAL CONTRACT REQUIREMENTS

Throughout the contract period, the Contractor shall ensure:

1. Services performed under this contract are provided with an emphasis on providing the customer with the information and/or service they need, while projecting an overall attitude of patient, courteous service to all customers;
2. Opportunities for improving the efficiency, tracking or quality of the services provided are communicated to the NRC-PO for possible update of the procedures in Attachment-A;
3. The procedures in Attachment-A are updated promptly (new procedures are incorporated into Attachment-A within 2-days of being approved by the NRC-PO) to reflect the current process being used to provide each service;
4. The procedures in Attachment-A are updated completely/accurately to provide step-by-step guidance for accomplishing all services covered by this contract;
5. All services are continuously performed in accordance with the procedures stated in Attachment-A, unless the NRC-PO has provided advance approval of any deviation;
6. On-site contract personnel are dressed appropriately for an office environment;
7. On-site contract personnel are fluent in the English language, both verbally and in writing;
8. Accurate records are maintained of the services requested/provided;
9. Periodic reports are delivered complete and in accordance with contract schedules.

B.5 CONTRACTOR QUALITY CONTROL

The Contractor shall monitor performance of these services with an emphasis on minimizing the recurrence of any "valid-complaints."

B.6 OVERALL PRIORITIZATION OF SERVICES

SECTION B - STATEMENT OF WORK

NRC-10-02-151

Services under each Task Area shall be handled on a First-in/First-out basis. Any deviation from this prioritization method shall be approved in advance by the NRC-PO. The NRC-PO shall determine the relative-priority of concurrent or urgent service requests.

Occasionally, an unusually large or urgent service request will require the Contractor to focus the majority of on-site resources on a single task area to meet urgent project deadlines. If the NRC-PO agrees the specific situation warrants this level of urgent processing, NRC will not hold the Contractor responsible for temporary delays in other services that arise as a direct result of the urgent project consuming the Contractor's on-site resources.

B.7 PROFESSIONAL CONDUCT

The services performed under this contract include frequent direct contact with NRC personnel of all levels which requires that all on-site Contractor personnel use appropriate language and dress for an office environment at all times. Profanity shall be excluded from any form of communication during performance of services under this contract.

B.8 OCCASIONAL OVERTIME REQUIREMENTS

Occasionally, an unusually large or urgent service request will require the Contractor to provide NRC with support outside the normal business day stated for a Task Area. The Contractor shall provide any overtime support requested by the NRC-PO and receive payment for the services performed in accordance with the overtime hourly rates established as part of this contract. NRC will pay the Contractor one-half the applicable overtime hourly-rate amount for each full 30-minute increment of services performed. Overtime services performed shall be paid on the basis of the first 1 to 29 minutes = half-hour OT paid, and there-after each full 30-minute increment after the first half-hour receives a half-hour of OT pay.

(examples: 10 minutes worked = half-hour OT, 45 minutes worked = half-hour OT,
80 minutes worked = 1-hour OT, 185 minutes worked = 3 hours OT)

B.9 DURATION OF CONTRACT

The period of performance of this contract shall begin with a 5-month base-period from 7/01/02 through 11/30/02 and include 3 additional one-year options thereafter.

The first 11 work-days of the base-period in July (7/01/02-7/16/02 excluding 7/04/02) shall be used to orient the Contractor's on-site representative with the overall NRC facility and the various available resources (key personnel contacts, use of NRC-specific software applications, locations of equipment/materials, etc.) and to clarify/update the requirements and procedures of the task oriented guidance in Attachment-A. At the end of this initial 2-week period, the Contractor and NRC-PO shall reach agreement on the final current version of Attachment-A.

The following 11 work-days of the base-period in July (7/17/02-7/31/02), shall be used to convert the operation of the ASC front desk (Task Area #1 - Subtask -A) from NRC staff to the Contractor and provide on-site support for NRC Property Management services (Task Area #2 - Subtasks A-E). During this period the Contractor shall receive briefings on the status of various

NRC-10-02-151

related projects, provision of services, update of tracking reports, completion of activity logs, contacts for non-ASC services, use of the NRC network and related systems and location of various related documents and reference materials, and also assist with property inventory services.

B.11 MONTHLY REPORTS:

The Contractor shall provide the following information in a monthly report to the NRC-PO within 2-weeks after the completion of each calendar-month:

- An updated copy of the current procedures and guidance for Attachment-A (if any change in procedures/services has occurred since the previous month);
- A list of all discrepancies/complaints during the period;
- A list of any discrepancies/complaints during the period which were determined by the NRC-PO to be "valid-complaints";
- A list of any discrepancies/complaints during the period which were the same or similar to previous discrepancies/complaints;
- For each "valid-complaint" listed for the period, identification of the corrective action implemented by the Contractor to prevent the same or similar discrepancy from happening again.

B.12 ANNUAL REPORT:

The Contractor shall maintain a record of the quantity of each type of service provided during the preceeding annual federal fiscal-year period. Within 2 weeks after completion of each fiscal-year, the Contractor shall provide the NRC PO with a report identifying the quantity of each type of service provided during the preceeding year.

B.13 PERFORMANCE MEASURE:

- Failure by the Contractor to comply with any of the:
- A.) General Contract Requirements of this contract;
 - B.) Specific requirements stated for an individual Task Area, or;
 - C.) The current procedures in Attachment-A;
- shall constitute a "**valid-complaint**" under this contract.

SECTION B - STATEMENT OF WORK

NRC-10-02-151

B. 14 PERFORMANCE STANDARD:

No more than four (4) total discrepancies per calendar-month period, in which the NRC-PO verifies the discrepancy is a "valid-complaint" for non-compliance with any Contract Requirements.

B.15 PERFORMANCE INCENTIVE:

NRC will deduct the following amounts from the monthly invoice payment for any month in which the Contractor fails to comply with the contract performance standard stated above:

- 0-4 Valid-complaints per calendar-month period will result in no deduction;
- 5 Valid-complaints per calendar-month period will result in 1% of the total monthly invoice being deducted;
- 6 Valid-complaints per calendar-month period will result in 2% of the total monthly invoice being deducted;
- 7 Valid-complaints per calendar-month period will result in 3% of the total monthly invoice being deducted;
- 8 Valid-complaints per calendar-month period will result in 4% of the total monthly invoice being deducted;
- 9 Valid-complaints per calendar-month period will result in 5% of the total monthly invoice being deducted.

NOTE: Under the Performance Incentives listed above, NRC will not deduct more than a total of 5% from the monthly invoice.

ATTENTION: NRC understands that during the initial start-up of this contract there will be a higher incidence of mistakes than is a true reflection of the Contractor's normal performance level. Accordingly, during the first month of this contract (July, 2002) NRC will not take a monetary deduction for the Contractor exceeding the allowable number of valid-complaints.

The proposer/contractor must identify all individuals and propose the level of Information Technology (IT) approval for each, using the following guidance. The NRC sponsoring office shall make the final determination of the level, if any, of IT approval required for all individuals working under this contract.

The Government shall have and exercise full and complete control over granting, denying, withholding, or terminating building access approvals for individuals performing work under this contract.

CONTRACTOR SECURITY REQUIREMENTS FOR LEVEL I

Performance under this contract will involve prime contractor personnel, subcontractors or others who perform services requiring direct access to or operate agency sensitive information technology systems or data (IT Level I).

The IT Level I involves responsibility for the planning, direction, and implementation of a computer security program; major responsibility for the direction, planning, and design of a computer system, including hardware and software; or the capability to access a computer system during its operation or maintenance in such a way that could cause or that has a relatively high risk of causing grave damage; or the capability to realize a significant personal gain from computer access. Such contractor personnel shall be subject to the NRC contractor personnel security requirements of NRC Management Directive (MD) 12.3, Part I and will require a favorably adjudicated Limited Background Investigation (LBI).

A contractor employee shall not have access to NRC facilities, sensitive information technology systems or data until he/she is approved by Personnel Security Branch, Division of Facilities and Security (PERSEC/DFS) first for temporary access (based on a favorable adjudication of their security forms and checks) and final access (based on a favorably

adjudicated LBI) in accordance with the procedures found in NRC MD 12.3, Part I. The individual will be subject to a reinvestigation every 10 years. Timely receipt of properly completed security applications is a contract requirement. Failure of the contractor to comply with this condition within the ten work-day period may be a basis to void the notice of selection. In that event, the Government may select another firm for award.

The contractor shall submit a completed security forms packet, including the SF-86, "Questionnaire for National Security Positions," and fingerprint charts, through the Project Officer to PERSEC/ DFS for review and favorable adjudication, prior to the individual performing work under this contract. The contractor shall assure that all forms are accurate, complete, and legible (except for Part 2 of the questionnaire, which is required to be completed in private and submitted by the individual to the contractor in a sealed envelope), as set forth in MD 12.3 which is incorporated into this contract by reference as though fully set forth herein. Based on PERSEC review of the applicant's security forms and/or the receipt of adverse information by NRC, the individual may be denied access to NRC facilities, sensitive information technology systems or data until a final determination is made of his/her eligibility under the provisions of MD 12.3. Any questions regarding the individual's eligibility for IT Level I approval will be resolved in accordance with the due process procedures set forth in MD 12.3 Exhibit 1 and E. O. 12968.

In accordance with NRCAR 2052.204-70 "Security," IT Level I contractors shall be subject to the attached NRC Form 187 (See Section J for List of Attachments) which furnishes the basis for providing security requirements to prime contractors, subcontractors or others (e.g., bidders) who have or may have an NRC contractual relationship which requires access to or operation of agency sensitive information technology systems or remote development and/or analysis of sensitive information technology systems and data or other access to such systems and data; access on a continuing basis (in excess of 30 days) to NRC Headquarters controlled buildings; or otherwise requires NRC photo identification or card-key badges.

CONTRACTOR SECURITY REQUIREMENTS FOR LEVEL II

Performance under this contract will involve contractor personnel that develop and/or analyze sensitive information technology systems or data or otherwise have access to such systems and data (IT Level II).

The IT Level II involves responsibility for the planning, design, operation, or maintenance of a computer system and all other computer or IT positions. Such contractor personnel shall be subject to the NRC contractor personnel requirements of MD 12.3, Part I, which is hereby incorporated by reference and made a part of this contract as though fully set forth herein, and will require a favorably adjudicated Access National Agency Check with Inquiries (ANACI).

A contractor employee shall not have access to NRC facilities, sensitive information technology systems or data until he/she is approved by PERSEC/DFS first for temporary access (based on a favorable review of their security forms and checks) and final access (based on a favorably adjudicated ANACI) in accordance with the procedures found in MD 12.3, Part I. The individual will be subject to a reinvestigation every 10 years. Timely receipt of properly completed security applications is a contract requirement. Failure of the contractor to comply with this condition within the ten work-day period may be a basis to void the notice of selection. In that event, the Government may select another firm for award.

The contractor shall submit a completed security forms packet, including the SF-86, "Questionnaire for National Security Positions," and fingerprint charts, through the Project Officer to the NRC PERSEC/DFS for review and favorable adjudication, prior to the individual performing work under this contract. The contractor shall assure that all forms are accurate, complete, and legible (except for Part 2 of the questionnaire, which is required to be completed in private and submitted by the individual to the contractor in a sealed envelope), as set forth in MD 12.3. Based on PERSEC review of the applicant's security forms and/or the receipt of adverse information by NRC, the individual may be denied access to NRC facilities, sensitive information technology systems or data until a final determination is made of his/her eligibility under the provisions of MD 12.3. Any questions regarding the individual's eligibility for IT Level II approval will be resolved in accordance with the due process procedures set forth in MD 12.3 Exhibit 1 and E. O. 12968.

In accordance with NRCAR 2052.204-70 "Security," IT Level II contractors shall be subject to the attached NRC Form 187 (See Section J for List of Attachments) which furnishes the basis for providing security requirements to prime contractors, subcontractors or others (e.g. bidders) who have or may have an NRC contractual relationship which requires

access to or operation of agency sensitive information technology systems or remote development and/or analysis of sensitive information technology systems and data or other access to such systems and data; access on a continuing basis (in excess of 30 days) to NRC Headquarters controlled buildings; or otherwise requires NRC photo identification or card-key badges.

CANCELLATION OR TERMINATION OF IT ACCESS/REQUEST

When a request for investigation is to be withdrawn or canceled, the contractor shall immediately notify the Project Officer by telephone in order that he/she will contact the PERSEC/DFS so that the investigation may be promptly discontinued. The notification shall contain the full name of the individual, and the date of the request. Telephone notifications must be promptly confirmed in writing to the Project Officer who will forward the confirmation to the PERSEC/DFS. **** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE (Standard Form 1444 (SF 1444))

Conformance Process

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. (See Section 4.6 (C)(vi)). When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4)

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
