July 26, 2002

Dear Mr. Parker,

Environics USA, Inc. Possession Application:

I understand you have been speaking with our Mr. Rick Krahe regarding Environics USA's application for a Possession License, and that you require a position from us on three matters:

1. Environics USA will not be providing individual dosimetry monitoring for employees. This has been determined on the basis of risk assessments performed during NRC Licensing of our detectors. Per the Exemption Licenses we will not be opening the Exempted Modules at our facilities.
2. We are making arrangements to have an appropriate Radiation Survey Meter available, should the need arise.
3. We are willing to accept damaged items from our customers.

I trust the above will address your concerns. Please do not hesitate to contact either Rick or myself should you have any further questions.

Sincerely,

Rob Howard
Director
Programs and Engineering
