Re: 2nd Quarter SCN analysis

Dear Mr. Bellamy:

As outlined in MEI's June 11, 2002 letter to your office our facility instituted a quarterly analysis plan for the daily-generated SCN – Silica Co-Neutralized material.

Attached, please find a copy of the New Jersey Department of Environmental Protection report for quarter 2 of 2002.

Please contact me at (908)-782-5800 extension 1124, should you have any questions or require additional information.

Sincerely,

John F. Beaupre
Manager, Environmental Health and Safety Compliance
