

October 11, 1988

Dockets Nos. 50-282 and 50-306

Mr. D. M. Musolf, Manager  
Nuclear Support Services  
Northern States Power Company  
414 Nicollet Mall  
Minneapolis, Minnesota 55401

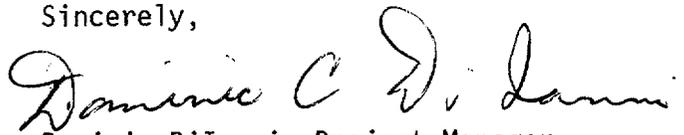

Dear Mr. Musolf:

SUBJECT: CORRECTIONS TO AMENDMENTS NOS. 80/73 AND 84/77 TO FACILITY OPERATING  
LICENSES NOS. DPR-42 AND DPR-60 FOR PRAIRIE ISLAND NUCLEAR GENERATING  
PLANT, UNITS NOS. 1 AND 2

Thank you for your telecopied note to me dated September 26, 1988, which pointed out oversights in our instructions for removal of Technical Specification (TS) pages in the subject amendments. Specifically, we neglected to explicitly state in Amendments Nos. 80 and 73 issued on November 14, 1986, that pages TS.6.8.1 should be removed. Similarly, the instructions for Amendments Nos. 84 and 77 failed to explicitly state that figures TS.3.10-8 should be removed.

Accordingly, please correct these errors by removing pages TS.6.8.1 and figures TS.3.10-8 from the Technical Specifications for each license. We regret any inconvenience caused by these oversights.

Sincerely,

Dominic DiIanni, Project Manager  
Project Directorate III-1  
Division of Reactor Projects - III, IV, V  
& Special Projects
