Subject: NRC Financial Assurance RAI

North Ann
Savvy

Steve,

Tom informed me that you were looking for the approved rates from the various jurisdictions regarding decommissioning funding. The expected after tax annual rate used in the NRC Financial Assurance filing (Table V: Annual Funding Levels Necessary to Meet 2001 NRC Minimum Financial Assurance Amounts) was 7.4%. This rate is below that shown in the information provided for all cases except North Carolina. I understand that the rate is likewise below the aggregate value for approved levels. The approved levels for each are detailed below:

<u>Virginia Jurisdictional Case No. PUE 950031</u>	7.64%	(Va
Non-Jurisdictional Customers follow this level also)		
FERC Jurisdictional Case No. ER91-562-000	7.50%	
FERC Non-Jurisdictional Case No. ER91-562-000	8.04%	
<u>North Carolina Case Docket No. E-22, Sub 333</u>	7.1326%	

If you need additional info, give Tom or I a call.
