Here's the THTR input which includes an edited version of what I previously provided. Also attached are an edited version of Howard's and Amy's input and a nearly complete listing of all documents and handouts received. I still need to translate the titles of some of the German documents, number and order them, etc.

I'll send more on SANA and NACOK and offer more editing/comments tonight and from vacation...

I am waiting for the THTR input and will then send out the first draft of the report. If I don't have the input tomorrow a.m., I'll forward it anyway.

I believe we need a master list of all the documents that we received to attach to the report. So could each of you develop a list for your area and I will compile a master list. It probably is a good idea to have a full set of documents in each program office. Are Alex, Amy and Stu willing to each host a set of all the documents?

Thanks. H.
