RE: 10 CFR 50.54(a)(3)  
10 CFR 50.54(a)(4)

U.S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, DC 20555

**Millstone Nuclear Power Station, Unit Nos. 1, 2 and 3  
Administrative Error Associated with Revision 24 to the Quality  
Assurance Program Topical Report - Millstone Power Station**

In a letter dated July 1, 2002,<sup>(1)</sup> Dominion Nuclear Connecticut, Inc. (DNC) submitted in accordance with 10 CFR 50.54(a)(3), Revision 24 of the Quality Assurance Program (QAP) Topical Report. This submittal also included a proposed reduction in commitment concerning a change in frequency of review of the quality assurance program by the independent review team from annually to biennially requiring U.S. Nuclear Regulatory Commission (NRC) review and approval, pursuant to 10 CFR 50.54(a)(4). The wording of QAP Section 1.5 was appropriately modified. However, the unchanged QAP Section 2.1 (last paragraph) page was inadvertently submitted instead of the revised page. The correct QAP Section 2.1 page is provided in Attachment 1. DNC regrets any inconvenience this error may have caused.

Also, in recognition of this administrative error, Revision 24 of the QAP Topical Report will be issued with the effective date of NRC approval, or sixty days following submittal of this letter (B18726) as prescribed in 10 CFR 50.54(a)(4)(iv).

There are no regulatory commitments contained within this letter.

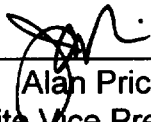

<sup>(1)</sup> J. Alan Price letter to U.S. Nuclear Regulatory Commission, "Millstone Nuclear Power Station, Unit Nos. 1, 2 and 3, Request for Approval of a Change In the Frequency of Review of the Quality Assurance Program by the Independent Review Team and Annual Reporting of Changes to the Quality Assurance Program, Revision 24 to the Dominion Nuclear Connecticut, Inc. Quality Assurance Program Topical Report - Millstone Power Station," (B18693) dated July 1, 2002.

Q004

If you should have any questions on the above, please contact Mr. Ravi Joshi at (860) 440-2080.

Very truly yours,

DOMINION NUCLEAR CONNECTICUT, INC.

  
\_\_\_\_\_  
J. Alan Price,  
Site Vice President - Millstone

Millstone Nuclear Power Station, Unit Nos. 1, 2 and 3

Administrative Error Associated with Revision 24 to the Quality  
Assurance Program Topical Report - Millstone Power Station  
QAP Section 2.1 - Corrected Page

Procedures define the required indoctrination and training of personnel performing activities affecting quality, as necessary, to assure that suitable proficiency is achieved and maintained.

Training sessions are documented. The content of the training sessions is described, attendees and attendance date indicated, and the results (e.g., examination results) of the training sessions recorded, as applicable.

Periodic program review of the status and adequacy of this QAP is accomplished by **Nuclear Oversight** audits, surveillances and inspections, by Nuclear Safety Assessment Board (NSAB) reviews, and by the independent review team which performs the **biennial** Management Quality Assurance Review described herein and in QAP 1.0, "Organization", Section 1.5. Organizations outside the licensee are required to review the status and adequacy of that part of this QAP for which they have been delegated responsibility.

## 2.2 IMPLEMENTATION

### 2.2.1 GOALS AND OBJECTIVES

The goals of this QAP are to maintain quality levels in an effective and efficient manner and to assure a high degree of functional integrity and reliability of Station nuclear power plant quality structures, systems, and components. To meet these goals, the following objectives of this QAP have been defined:

- a. Define, through procedures, the quality activities that apply to design, fabrication, procurement, construction, testing, operation, refueling, repair, maintenance and modification of the Station nuclear power plants;
- b. Establish, assign, and document the responsibilities for the conduct of those activities affecting quality structures, systems, and components;
- c. Establish confidence that (a) quality activities for the Station nuclear power plants are performed consistent with the licensee's policies and (b) quality activities are performed by qualified personnel, and are verified through a system of audits, surveillances, and inspections of those organizations with quality responsibilities;
- d. Apprise the **Site Vice President - Millstone and the Senior Vice President - Nuclear Operations & Chief Nuclear Officer - Dominion Nuclear Connecticut, Inc.** of unresolved problems and trends which could have a significant effect on nuclear power plant safety.

### 2.2.2 PROGRAM DOCUMENTATION

This QAP defines the licensee's nuclear policies, goals, and objectives, and is used as guidance for the development of the various division, department, branch, or section procedures. Revisions to this QAP shall be made as needed to reflect current requirements and descriptions of
