Mr. Roger O. Anderson, Director  
Licensing and Management Issues  
Northern States Power Company  
414 Nicollet Mall  
Minneapolis, Minnesota 55401

SUBJECT: PRAIRIE ISLAND NUCLEAR GENERATING PLANT, UNIT NOS. 1 AND 2 -  
CORRECTION TO AMENDMENTS 127 and 119 RE: SAFETY INJECTION PUMP LOW  
TEMPERATURE OPERATIONS (TAC NOS. M97884 AND M97885)

Dear Mr. Anderson:

On February 20, 1997, the Commission issued Amendment No. 127 to Facility Operating License No. DPR-42 and Amendment No. 119 to Facility Operating License No. DPR-60 for the Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2, respectively. The amendments revised TS 3.3.A and the associated Bases to allow safety injection pump testing and evolutions during low-temperature shutdown conditions.

On pages 1 and 2 of the staff's safety evaluation, we erroneously refer to TS 3.3.A.2.g (once on page 1 and once on page 2) instead of TS 3.3.A. Please correct your copies of the safety evaluation to state TS 3.3.A in these two instances. The technical specification pages are correct as issued.

We regret any inconvenience this oversight may have caused. If you have any questions on this correction, please call me at (301) 415-1355.

Sincerely,

Orig. signed by  
Beth A. Wetzel, Project Manager
