DOCKET NOS. 50-445 and 50-446

Texas Utilities Generating Company
 ATTN: Mr. R. J. Gary
 Executive Vice President and
 General Manager
 2001 Bryan Tower
 Dallas, Texas 75201

Gentlemen:

This office has received a copy of your December 26, 1978 application which you filed with the Office of Nuclear Reactor Regulation (ONRR) for review and approval. The application requested an amendment to Construction Permit Nos. CPPR-126 and CPPR-127 to reflect additional ownership interests in the Comanche Peak Steam Electric Station Unit Nos. 1 and 2. Your request was accompanied by a Class II amendment fee for Unit No. 1 and a Class I amendment fee for Unit No. 2 because you determined that the proposed amendments were pro forma and administrative in nature and involve a duplicate unit.

Based on guidance from the ONRR staff as a result of their review of your application, it has been determined that your application involves antitrust and financial reviews which are considered to be more than pro forma and administrative in nature. As such, a Class III fee of \$4,000 is required for Unit No. 1. The Class I fee is appropriate for Unit No. 2. It is requested that your Company forward an additional sum of \$2,800 to this office. If the final review of your application by the ONRR staff reveals that these fees are incorrect, you will be refunded any overpayment or billed for any additional amount due. Fees should be made payable to the U. S. Nuclear Regulatory Commission and sent by check, draft or money order.

Sincerely,

Original Signed by:
 Reba M. Diggs
