101 Ash Street  
Post Office Box 1831  
San Diego, California 92112

Gentlemen:

Subject: Issuance of Amendment No. 15 to Facility Operating License NPF-10  
and Amendment No. 4 to Facility Operating License NPF-15 -  
San Onofre Nuclear Generating Station, Units 2 and 3

The Nuclear Regulatory Commission (the Commission) has issued the enclosed Amendment No. 15 to Facility Operating License NPF-10 and Amendment No. 4 to Facility Operating License NPF-15 for the San Onofre Nuclear Generating Station, Units 2 and 3, located in San Diego County, California. The amendments modify the emergency preparedness license conditions to grant additional time to satisfy the requirements of 10 CFR 50.47(b)(12) related to medical services. These amendments were requested by your letter of January 14, 1983 and were authorized by the Atomic Safety and Licensing Board's (ASLB) Order of February 1, 1983.

Facility Operating License NPF-10, as amended by Amendment No. 7 on September 7, 1982, and Facility Operating License NPF-15, as issued on November 15, 1982, each contain a condition which requires that SCE shall:

"Provide plans demonstrating that SCE and offsite jurisdictions have developed and stand ready to implement arrangements for medical services for members of the offsite public. Documentation of the arrangements and provisions made shall be provided to the Atomic Safety and Licensing Board as well as to the NRC staff (see Initial Decision, Section III, pp. 43-47, and Section V, Paragraph D, pp. 216-217)."

These conditions were required by the ASLB's Initial Decision of May 14, 1982, LBP-82-39, and are based on a Board requirement that the issue be resolved within six months of full power operation, i.e., by March 17, 1983.

Your request of January 14, 1983 to extend the above date is based on the inability to fulfill the condition pending a decision by the Nuclear Regulatory Commission regarding the scope of 10 CFR 50.47(b)(12). Because of this circumstance, the parties to this proceeding have stipulated to an extension of the date required for satisfaction of this condition (i.e., until September 17, 1983, or six months from the date that the Commission issues its determination of the medical services issues certified by it, whichever is the shorter period). This stipulation was approved by the ASLB in its Order of February 1, 1983, in which the Board found that:

OFFICE	APPROVED BY	DATE					
SURNAME	that:						
DATE							

"(a) the lack of any significant change in the factors underlying our original determination that full power operation pending timely resolution of the medical services issue would not endanger public health and safety (Initial Decision, slip op. at 44-46), and (b) the fact that the pending interlocutory appellate review of the medical services issue has already taken up most of the time this Board originally allocated for resolution of that issue."

We have determined that the issuance of these amendments will not result in any significant environmental impact and the pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

A copy of the Federal Register notice which has been forwarded to the Office of Federal Register for publication is also enclosed.

Sincerely,

*151*

George W. Knighton, Chief

SOUTHERN CALIFORNIA EDISON COMPANY

SAN DIEGO GAS AND ELECTRIC COMPANY

THE CITY OF RIVERSIDE, CALIFORNIA

THE CITY OF ANAHEIM, CALIFORNIA

DOCKET NO. 50-361

SAN ONOFRE NUCLEAR GENERATING STATION, UNIT 2

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 15  
License No. NPF-10

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment for the San Onofre Nuclear Generating Station, Unit 2 (the facility) filed by the Southern California Edison Company on behalf of itself and San Diego Gas and Electric Company, The City of Riverside and The City of Anaheim, California (licensees) dated January 14, 1983, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations as set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the application, as amended, the provisions of the Act, and the regulations of the Commission;
  - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations set forth in 10 CFR Chapter I;
  - D. The issuance of this license amendment will not be inimical to the common defense and security or to the health and safety of the public;
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

2. Accordingly, the license is amended by deleting paragraph 2.C.(23) a.iii, and by adding a new paragraph 2.C.(23)c to read as follows:

c. Condition of ASLB of February 1, 1983 (Medical Services)

By September 17, 1983, or six months from the date that the Nuclear Regulatory Commission issues its determination of the medical services questions certified by it, whichever is the shorter period of time, SCE shall demonstrate that SCE and offsite jurisdictions have developed and stand ready to implement arrangements for medical services as required by 10 CFR 50.47(b)(12) (See Initial Decision, Section III, pp. 43-47, and Section V, Paragraph D, pp. 216-217, and Stipulation and Order Modifying License Condition, February 1, 1983).

3. This license amendment is effective on February 17, 1983.

Amendment No. 4  
License No. NPF-15

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment for the San Onofre Nuclear Generating Station, Unit 3 (the facility) filed by the Southern California Edison Company on behalf of itself and San Diego Gas and Electric Company, The City of Riverside and The City of Anaheim, California (licensees) dated January 14, 1983, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations as set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the application, as amended, the provisions of the Act, and the regulations of the Commission;
  - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations set forth in 10 CFR Chapter I;
  - D. The issuance of this license amendment will not be inimical to the common defense and security or to the health and safety of the public;
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NOS. 50-361 AND 50-362SOUTHERN CALIFORNIA EDISON COMPANY, ET ALNOTICE OF ISSUANCE OF AMENDMENTSFACILITY OPERATING LICENSE NOS. NPF-10 AND NPF-15

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. NPF-10, and Amendment No. 4 to Facility Operating License NPF-15 to Southern California Edison Company (SCE), San Diego Gas and Electric Company, The City of Riverside, California and The City of Anaheim, California (licensees) for the San Onofre Nuclear Generating Station, Units 2 and 3 (the facility) located in San Diego County, California. These amendments are effective February 17, 1983.

The amendments modify the Emergency Preparedness license conditions to grant additional time to satisfy the requirements of 10 CFR 50.47(b)(12) related to medical services. These amendments were requested by the SCE letter of January 14, 1983 and were authorized by the Atomic Safety and Licensing Board's Order of February 1, 1983.

Issuance of these amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of these amendments is subsumed by the prior public notice of the overall action regarding issuance of operating licenses for these facilities, published in the FEDERAL REGISTER on April 7, 1977 (42 F.R. 18460).

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and the pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) Southern California Edison Company's letter dated January 14, 1983, (2) Amendment No. 15 to Facility Operating License No. NPF-10, and (3) Amendment No. 4 to Facility Operating License NPF-15.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and the San Clemente Library, 242 Avenida Del Mar, San Clemente, California 92672. A copy of items (2) and (3) may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 17<sup>th</sup> day of February, 1983.
