SUBJECT: Entergy Nuclear Operations, Inc.
Pilgrim Nuclear Power Station
Docket No. 50-293
License No. DPR-35

Supplement to License Amendment Request Letter No. 2.02.032

REFERENCE: Entergy/Pilgrim Letter No. 2.02.032, "License Amendment Request, Relocation of Coolant Chemistry – Conductivity And Chlorides As Described in Technical Specification 3/4.6.B to updated Final Safety Analysis Report", dated June 5, 2002 *[sic]*.

Letter Number: 2.02.076

Dear Sir or Madam:

This letter supplements Entergy Nuclear Operations, Inc. (Entergy) requested license amendment letter No. 2.02.032 to relocate Reactor Coolant Chemistry Technical Specification 3/4.6.B from the Technical Specifications to the Updated Final Safety Analysis Report.

Subsequent to the transmittal of the referenced letter, Entergy discovered that the cover letter was printed with a "June 5, 2002" date, instead of the actual signature and affirmation date of "July 5, 2002". This is an inadvertent word processing error and does not impact the license amendment application. With this letter, Entergy is correcting this date discrepancy.

The correct date of Entergy Letter Number 2.02.032 is July 5, 2002.

If you have any questions or require additional information, please contact Mr. Bryan Ford, Licensing Manager, at (508) 830-8403.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 13th day of August 2002.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles M. Dugger", followed by a horizontal line.
Charles M. Dugger
