Mr. Edgar D. Bailey, C.H.P., Chief
Radiologic Health Branch
Division of Food, Drug & Radiation Safety
California Department of Health Services
P. O. Box 942732
Sacramento, CA 94234-7320

Dear Mr. Bailey:

We have reviewed the final California regulations Title 17, Public Health, Article 1, General of Group 3, Standards for Protection Against Radiation. The regulations were received by the Office of State and Tribal Programs (STP) on June 26, 2002. The final regulations are in response to the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. In addition, we reviewed our March 3, 2002 letter to you that addressed the proposed regulations. We discussed our review of the regulations with Phillip Scott on August 20, 2002.

As a result of the NRC review, we have one comment, enclosed, on the rules submitted to fulfill the requirements of Rats ID 1997-2, *Recognition of Agreement State Licenses in Areas Under Exclusive Federal Jurisdiction*. Please note that we have limited our review to regulations required for compatibility and/or health and safety.

The submitted rule sections for RATS ID 1991-1, *Safety Requirements for Radiographic Equipment*, and RATS ID 1993-1, *Decommissioning Recordkeeping and License Termination*, do not fully cover the amendment requirements. Both of these amendments have been superseded by more recent amendments and some requirements in each have been moved to other sections in the CFR or deleted. In order for this office to credit California for these amendments, a full review of the Radiography and Decommissioning/License Termination sections of the California Rules must be done. As discussed with your Staff, since California is currently working on a radiography amendment, it is suggested that the State wait to resubmit your radiography rules until this amendment is finished. Please contact my Staff if there is any confusion regarding the requirements of these amendments.

The SRS Data Sheet summarizes our knowledge of other California regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsr.doh.ca.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or John Zabko of my staff at (301) 415-2308 or JGZ@nrc.gov.

Sincerely,

/RA/

Josephine M. Piccone, Deputy Director
Office of State and Tribal Programs
