SUBJECT: SURRY POWER STATION: NUCLEAR REGULATORY COMMISSION OFFICE  
OF INVESTIGATIONS CASE NUMBER 2-2001-036

Dear Mr. Christian:

Enclosed for your information is the synopsis of the Nuclear Regulatory Commission (NRC) Office of Investigations (OI) completed report regarding the alleged deliberate falsification of background information by a contractor general foreman to obtain site access. OI did not substantiate that the contractor falsified a security questionnaire by failing to report an arrest.

We have reviewed the results of the OI activity and Station Administrative Procedure VPAP-0105 (Revision 15), "Fitness for Duty Program." This review identified no findings of significance and we plan no further action with regard to this matter. Should you have any questions concerning this letter, please contact us.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and the enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).

Sincerely,

A handwritten signature in black ink, appearing to read "Anne T. Boland".

## SYNOPSIS

The U.S. Nuclear Regulatory Commission, Region II, Office of Investigations (OI), initiated this investigation on December 5, 2001, to determine if a general foreman in the Iron Department, Fluor-Global, a contractor for Surry Power Station, falsified a security background questionnaire and failed to report an arrest.

The evidence developed during this investigation did not substantiate that the general foreman falsified a security questionnaire. OI determined the general foreman did fail to immediately report an arrest, but no criminal intent was identified.

"Authorized for Release by the  
Director, OI, Region II Field  
Office on January 29, 2002."
