Mr. L.J. Victory, Jr., Chairman
ASME Sub-Group on Air Operated Valves
O&M of Nuclear Power Plants
Oconee Nuclear Station
7800 Rochester Highway
Mail Code ON03MC
Seneca, S.C. 29672

Dear Mr. Victory:

I wish to inform you that Mr. Joseph Colaccino is resigning as a member of the ASME Sub-Group on Air Operated Valves, O&M of Nuclear Power Plants. Mr. Colaccino's resignation is made necessary by his reassignment to another position within NRC in which developing codes and standards is not a functional responsibility.

I would like to nominate Mr. Steven M. Unikewicz as the authorized NRC representative on the Sub-Group on Air Operated Valves. Mr. Unikewicz has been involved with the implementation and review of nuclear codes and standards throughout his 20 year career of designing and operating nuclear power plants. He has been active in ASME technical activities for many years serving as Chair of the Systems and Facilities Design Committee, Power Division, and as member of ASME's Energy Committee as well as serving in many other roles within ASME.

Mr. Unikewicz's PF-1 form is enclosed.

It is requested that you process Mr. Colaccino's resignation and Mr. Unikewicz's nomination at the same time.

In accordance with OMB Circular A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," February 19, 1998, the participation on a committee of an authorized NRC representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

Correspondence to Mr. Unikewicz should be addressed to:
