 Subject: Participants and Agenda

D. Wuokko First Energy

Doug-

Per the NRC staff's request of this morning, attached is the planned list of our participants and the draft agenda (these are on the same attachment). There is a potential for proprietary information to be discussed at the meeting; this has not been finalized as of yet.

We would still like to receive the crack growth rate modeling and calculation information that was referred to by the NRC technical staff during the October 3 phone conference call and discussed with Sam Collins on October 12. Should the staff provide this tomorrow, please send it to Mike Leisure as I will be out of the office.

Dale Wuokko

 09:11 AM

Dale/Mike -

For your information, we have changed the meeting room location for this Wednesday's meeting on the Bulletin response. Instead of meeting in room O7B4, we will be meeting in the ACRS briefing room in Two White Flint (T2B3). We are doing this for both the Davis-Besse meeting at 10 a.m. and the Robinson meeting on the same subject at 1:00 p.m. in anticipation of a large audience.

Also, we would be interested in seeing your proposed agenda in advance. The tech staff has made this request in preparation for this meeting. I would also like to know if you will be presenting proprietary information during this meeting.

Thanks

Doug
