11 AM is not good for me , because we have an ACRS meeting at the same time.

>>> Douglas Pickett 11/06/01 04:44PM >>>

The Davis-Besse crowd will be flying in Thursday morning in advance of the NEI meeting. They have offered to meet with us at 11:00 a.m. Thursday morning in the Double-Tree to walk us through their videotapes of previous reactor vessel head inspections. However, due to the dry-run that morning for the NEI and ACRS meetings, I had to tell the licensee that the staff would be unavailable.

Nonetheless, can the staff be available to view the videotapes with the licensee after the NEI meeting Thursday afternoon? This could be done either at the Double-Tree or in a separate conference room here at OWFN. The videotapes are considered proprietary and the public would not be in attendance - we have also not noticed this as a meeting. If neither of the above locations are suitable, the licensee has invited everyone to the site.

I will be out of the office on Wednesday - so please contact either Stephen Sands or George Dick to tell them of your availability.

Doug
