Larry, don't start on these. Questions from the Commission are supposed to go through the EDO. I have suggested to John Craig that we let the staff work on the orders and technical assessment, and that we will answer Commission questions once we get story finalized.

FYI. I will work on these questions but I have been told getting out the technical assessment and working on the order are the top priorities. I may be able to get to them tomorrow.

I can handle most of them but need some input on the following:

Stephen/Doug please see # 4

Jack, John, Allen, Any input on # 5,6,7,8?

Larry.
