Subject: Re: EDO MEMO WITH DAVIS-BESSE ORDER ATTACHED

Larry,

Please let me know where the latest version is before you leave today.

I really appreciate all you effort on this issue during the past month. I think I would have had a nervous breakdown by now if you weren't helping me. It has been a relief knowing that someone a competent as yourself is working with me.

Thanks,
Jake

I delivered concurrence packages this morning to OE, DE, DSSA, and OGC. These packages reflect comments from OGC and John Z. I delievered a copy to Brian per his request. The plan is to deliver a package with all concurrences to Brian and Sam tomorrow morning.

This memo has the Davis-Besse order attached and states that the technical and regulatory reasoning for issuing the D.C. Cool 2 order is essentially the same and will be issued at approximately the same time as the Davis-Besse Order.

Please contact me when concurrence is completed.

Larry.
