Subject: Davis-Besse and D.C. Cook Unit 2 Orders

Larry/Allen

Brian Sheron has requested daily email status updates on the staff's review of the technical information from the licensees for Davis-Besse and D.C. Cook, Unit 2 (Allen) and the associated draft Orders (Larry). The update should include any meetings/conference calls with the licensees, decisions, additional information presented/provided, timing of additional information to be provided, staff's assessment of new information, progress made, etc...

The purpose of this email is to provide updated information in a timely manner to Brian so that he can keep senior management informed of the staff's continuing dialogue with licensees and status of the Orders. As the parallel path continues, we are fast approaching a point at which a decision must be made as to whether the licensees have provided the needed information to justify continued operation at these facilities beyond December 31, 2001. Therefore, please provide me with the updated information described above so that I can put together the first email for Brian. For today and tomorrow, please email me your updated status on these items by 3:00 p.m. to support sending this information to Brian. While I'm out of the office next week, Larry Burkhart will have the lead for these daily status update emails.

Thanks,
Jake
