Larry,

NRR

I think that I misstated the status of my changes in the version that I sent to all last night. I made some of the changes you recommended. There were others that I wanted to talk to the staff about to see if they were comfortable with the changes. My intent was to do that first thing this morning. Also, Mitzi and I had already agreed on some changes and I wanted to incorporate those along with some of yours and get that out to Mark so that he could work on Section IV as we discussed yesterday. I didn't make any of the changes to Section IV because of Mark's efforts (Mark has your red-line strikout file from yesterday).

I want you to know that I am still looking at all of your comments from yesterday (and your mark up today).

Sorry about the confusion.

Larry.

OGC

LARRY: Unfortunately, many of my prior comments were NOT made in the most recent revision. I've tried to mark it up again - the markup can be picked up from my secretary's counter at your convenience. Please also look over the redline/strikeout copy I provided yesterday.

To all,

Attached is the latest on the Davis-Besse order. OGC and I have gone through about 3 revisions today and it is getting better.

We received comments from Larry Chandler on Tuesday afternoon (Mark R, Mitzi, and I were in attendance with Larry).

I have made most of the changes that Larry suggested except where previous changes that Mitzi and I had already agreed upon were made and obviated the need for Larry's changes (Larry was working from a slightly earlier version).

One change that Mark will work on is an attempt to tighten up the RIS 2001-02 discussion (i.e., Section IV) per our conversation with Larry and per his marked-up comments.

Mark and Mitzi,

Attached is my latest and a copy of Larry's red-line strike-out of his comments.
