Subject: Re: Daily Status Report on Bulletin 2001-01

Jacob and Larry:

This is an excellent report. Appreciate receiving it; it provides good status of direction in these cases.

Release

The attached file contains the first edition of the Daily Status Report (DSR) for Bulletin 2001-01, "Circumferential Cracking of Reactor Pressure Vessel Head Penetration Nozzles." The purpose of this DSR is to provide up-to-date information to NRC Senior Management on the staff's progress on bulletin response reviews, regulatory actions, and inspection findings/results.

If you have any questions or comments, please email me or Larry Burkhardt.

Jake Zimmerman, Lead PM Bulletin 2001-01
