

August 30, 2002

MEETING NOTICE

Organization: Holtec International

Date and Time: September 19, 2002 10:00 a.m. - 1:00 p.m.

Location: U.S. Nuclear Regulatory Commission (NRC)
One White Flint North Building, Room O-13B4
11555 Rockville Pike
Rockville, Maryland 20852

Purpose: Transmittal to the NRC of a Computer Simulation Model of a HI-STAR Spent Fuel Transportation Cask, Impact Limiter and Rail Car

Participants: NRC HOLTEC
Wayne Hodges Christopher Singh, et al.
Jack Guttmann
Mahendra Shah
Bernard White, et al.
Sandia National Laboratories
Volpe Laboratory

Meeting Category: This is a Category 1 Meeting: In NRC's effort to assess the vulnerability of spent fuel transportation casks to terrorist events, computer simulation of the casks in their transportation configuration is needed for realistic consequence assessments. HOLTEC International volunteered to develop such a model for NRC assessments. This meeting transmits such a model to the NRC and permits the NRC the opportunity to question the details of the model. The public is invited to observe this meeting. This meeting does not related to any licensing activity related to HOLTEC International or other parties. The public will be offered an opportunity to communicate with the NRC after the business portion, but before the meeting is adjourned, as per "Public Meeting Policy," Federal Register Volume 67, Number 102, Pages 36920 - 36924, May 28, 2002.

Contact: Jack Guttmann (301) 415-8510 (jxg@nrc.gov)

Attendance at this meeting by other than those listed above should be made known by phone to the above contact.

Docket No.: N/A
