U.S. Nuclear Regulatory Commission Attention: Document Control Desk Washington, D.C. 20555-0001

Subject: Responses to Requests for Additional Information Concerning NRC Bulletin

2001-01, "Circumferential Cracking of Reactor Pressure Vessel Head

Penetration Nozzles"

Ladies and Gentlemen:

This letter provides responses to the Nuclear Regulatory Commission (NRC) staff's requests for additional information (RAIs) concerning the Davis-Besse Nuclear Power Station (DBNPS) response (FirstEnergy Nuclear Operating Company (FENOC) letter Serial Number 2731, dated September 4, 2001) to NRC Bulletin 2001-01, "Circumferential Cracking of Reactor Pressure Vessel Head Penetration Nozzles." These RAIs were provided by facsimile transmission on October 19, 2001, to the DBNPS. The RAIs concerned the DBNPS response to NRC Bulletin 2001-01 and two reports that were transmitted from the DBNPS staff by electronic mail to the NRC staff on October 12, 2001 (Structural Integrity Associates, Inc. calculation file number W-ENTP-11Q-306, "Finite Element Gap Analysis of CRDM Penetrations" and Framatome-ANP Document Number 51-5012567-01, "RV Head Nozzle and Weld Safety Assessment"). Responses to these RAIs were generally discussed at the public meeting conducted at the NRC offices on October 24, 2001.

The transmittal of the aforementioned Structural Integrity Associates, Inc. and Framatome-ANP documents was also made by FENOC letter Serial Number 2735, dated October 17, 2001.

Information in this record was deleted in accordance with the Freedom of Information Act, exemptions

APOL E-30 Docket Number 50-346 License Number NPF-3 Serial Number 2741 Page 2 of 2

Please be advised that Attachment 1 and Attachment 4 contain material (i.e., responses to RAIs; BAW-10190P, Addendum 2, dated 12/97; FRA-ANP Document 51-5013250-00,dated 6/01; FRA-ANP Document 32-5013346-01, dated 8/01; BAW-2213, dated 6/94; and FRA-ANP Document 32-5012403-00, dated 4/01) that is proprietary to Framatome ANP and should be withheld from public disclosure. In accordance with 10 CFR 2.790, affidavits providing the basis for withholding this information from public disclosure are provided in Attachment 5.

If you have any questions or require further information, please contact Mr. David H. Lockwood, Manager-Regulatory Affairs, at (419) 321-8450.

Very truly yours,

RMC/s

SUPPLEMENTAL INFORMATION

IN RESPONSE TO

NRC BULLETIN 2001-01

FOR

DAVIS-BESSE NUCLEAR POWER STATION

UNIT NUMBER 1

This letter is submitted pursuant to 10 CFR 50.54(f) and contains supplemental information concerning the response (Serial 2731, dated September 4, 2001) to NRC Bulletin 2001-01, "Circumferential Cracking of Reactor Pressure Vessel Head Penetration Nozzles," for the Davis-Besse Nuclear Power Station, Unit Number 1.

I, Guy G. Campbell, state that (1) I am Vice President - Nuclear of the FirstEnergy Nuclear Operating Company, (2) I am duly authorized to execute and file this certification on behalf of the Toledo Edison Company and The Cleveland Electric Illuminating Company, and (3) the statements set forth herein are true and correct to the best of my knowledge, information and belief.

Guy G. Campbell, Vice President - Nuclear

Affirmed and subscribed before me this 30th day of October, 2001.

Notary Public, State of Ohio - Nora L. Flood My commission expires September 4, 2002.

Ina L. Flood

10 CFR 2.790 Affidavits

- a) Serial Number 2741 Attachment 1 Affidavit (3 Pages)b) Serial Number 2741 Attachment 5 Affidavit (3 Pages)

AFFIDAVIT

STATE OF WASHINGTON)	SS
COUNTY OF BENTON)	

- 1. My name is C. M. Powers. I am Vice President, Quality for Framatome ANP ("FRA-ANP"), and as such I am authorized to execute this Affidavit.
- 2. I am familiar with the criteria applied by FRA-ANP to determine whether certain FRA-ANP information is proprietary. I am familiar with the policies established by FRA-ANP to ensure the proper application of these criteria.
- 3. I am familiar with the FRA-ANP information included in the Attachment to the letter, Serial No. 2741 from Guy G. Campbell to the Document Control Desk. These materials are referred to herein as "Documents." Information contained in these Documents has been classified by FRA-ANP as proprietary in accordance with the policies established by FRA-ANP for the control and protection of proprietary and confidential information.
- 4. These Documents contain information of a proprietary and confidential nature and is of the type customarily held in confidence by FRA-ANP and not made available to the public. Based on my experience, I am aware that other companies regard information of the kind contained in these Documents as proprietary and confidential.
- 5. These Documents have been made available to the U.S. Nuclear Regulatory Commission in confidence with the request that the information contained in the Documents be withheld from public disclosure.

- 6. The following criteria are customarily applied by FRA-ANP to determine whether information should be classified as proprietary:
 - (a) The information reveals details of FRA-ANP's research and development plans and programs or their results.
 - (b) Use of the information by a competitor would permit the competitor to significantly reduce its expenditures, in time or resources, to design, produce, or market a similar product or service.
 - (c) The information includes test data or analytical techniques concerning a process, methodology, or component, the application of which results in a competitive advantage for FRA-ANP.
 - (d) The information reveals certain distinguishing aspects of a process, methodology, or component, the exclusive use of which provides a competitive advantage for FRA-ANP in product optimization or marketability.
 - (e) The information is vital to a competitive advantage held by FRA-ANP, would be helpful to competitors to FRA-ANP, and would likely cause substantial harm to the competitive position of FRA-ANP.
- 7. In accordance with FRA-ANP's policies governing the protection and control of information, proprietary information contained in these Documents has been made available, on a limited basis, to others outside FRA-ANP only as required and under suitable agreement providing for nondisclosure and limited use of the information.
- 8. FRA-ANP policy requires that proprietary information be kept in a secured file or area and distributed on a need-to-know basis.

The foregoing statements are true and correct to the best of my knowledge, 9. information, and belief.

SUBSCRIBED before me this _

Susan K. McCoy

COMMITMENT LIST

The following list identifies those actions committed to by the Davis-Besse Nuclear Power Station (DBNPS) in this document. Any other actions discussed in the submittal represent intended or planned actions the DBNPS. They are described only for information and are not regulatory commitments. Please notify the Manager - Regulatory Affairs (419-321-8450) at the DBNPS of any questions regarding this document or associated regulatory commitments.

COMMITMENTS

The recommended crack growth rate developed by the MRP expert panel will be used by the DBNPS to verify and/or update RPV CRDM nozzle evaluations to determine if any aspects of the current plans may require refinement.

DUE DATE

Ongoing until March 2002 RFO

Notes:

In 1996 during 10 BEO, the entire RPV head was inspected. 1 Since the video was void of head orientation narration, each specific nozzle view could not be correlated.

Bold letters indicate leaking CRDM bolting flanges discovered and repaired during 12 RFO (April 2000). No Leak Observed = Visual Inspection Satisfactory, No Video Record Required.

No Leak Recorded = Nozzle inspection recorded on videotape

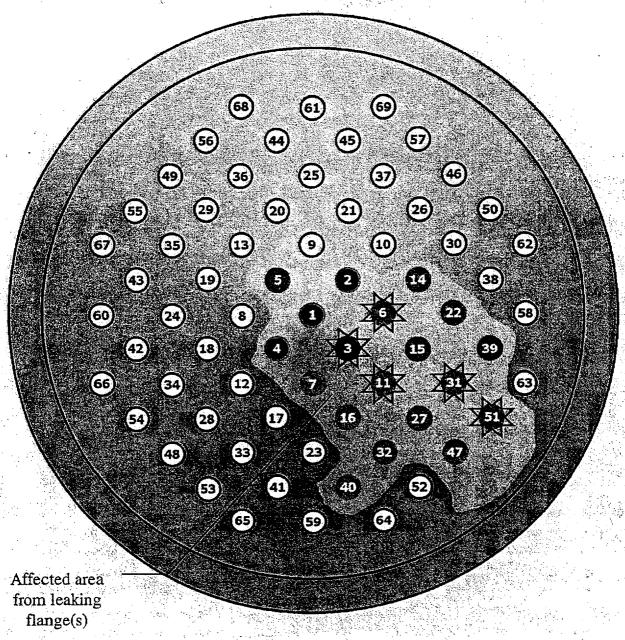

Italicized text indicates nozzles that are not expected to show leakage due to insufficient gap.
