Report of Full Compliance with NRC Order for Interim Safeguards and Security
Compensatory Measures

Dear Mr. Collins:

The purpose of this letter is to notify the NRC that Pacific Gas and Electric Company (PG&E) has completed all actions to comply with the NRC Security Order dated February 25, 2002, for Diablo Canyon Power Plant, Units 1 and 2.

These actions are identified in PG&E letters DCL-02-028, DCL-02-029, both dated March 18, 2002, DCL-02-055 dated May 1, 2002, and DCL-02-066 dated May 31, 2002. The enclosures to these letters describe how PG&E interpreted and either complied, or planned to comply with each interim compensatory measure (ICM) specified in attachment 2 of the Order. The enclosure to this letter revises PG&E's description of compliance with ICM B.2.a(2) and B.2.b. These changes are necessary due to a delay in receipt of material, and changes in Nuclear Energy Institute (NEI) guidance. Revision bars are used to indicate the changes.

This response is submitted to the Commission in accordance with 10 CFR 50.4.
