NRC Docket No. 50-289

In accordance with 10CFR50.4(b)(6), this letter submits one original and ten copies of Revision 20 of the Fire Hazards Analysis Report (FHAR) for TMI Unit 1. This revision corrects editorial discrepancies (missing or duplicate pages) in Revision 19, previously submitted to NRC in AmerGen letter dated April 10, 2002. It is requested when updating the FHAR, that all text be removed and replaced with Revision 20. Each revised page of the FHAR contains a vertical margin bar adjacent to each area changed.

Also enclosed is one set of additional controlled drawings currently referenced but not contained in the TMI Unit 1 UFSAR. This set of additional UFSAR referenced drawings should be incorporated into the TMI Unit 1 Print Book previously submitted to NRC in AmerGen letter dated April 10, 2002.
