Letter received 9/3/2002 (Undated and unsigned)

SUMMARY

I spoke with Mr. Thome about the letter referenced above. In this letter, the company informed the NRC that it no longer possessed a generally licensed measuring device. I asked Mr. Thome for clarification on this statement (e.g., did they lose the device or did they transfer it to the manufacturer for disposal, etc.). Mr. Thome informed me that the company transferred this unit, NDC Model 102 (SN 2800, NRC Device Key 310580) on 7/29/2002 to NDC Systems for disposal. He also informed me that the company intended to sent another unit to the manufacturer to disposal in the near future. The intent of this letter was to inform NRC of this disposal.
