Subject: NRC RIS 2002-09 Preparation and Scheduling of Operator Licensing Examinations

Rich,

John Hornick from Calvert Cliffs here. I just wanted to send you the information that this RIS asked for via email since the form being mailed will probably take a little longer to make it to you. In fact, if you have a fax number I could also send the NRC Form 536 to you. A summary of the information is as follows:

1 Utility prepared NRC exam to be given the week of March 1, 2004 (I believe this is a confirmed exam date already). The proposed number of candidates for this exam are: 4 RO, 5 SROI and 3 SROU.

1 Utility prepared NRC exam to be given in CY 2006. The proposed number of candidates for this exam are: 5 RO, 4 SROI and 3 SROU. A primary date for the exam would be the week of March 6, 2006 with an alternate date for the week of July 10, 2006.

For GFES Exams: We will have about 9 people taking the October, 2004 GFES exam and about 9 people taking the October, 2006 exam.

Please do not hesitate to call with any questions or problems. I can be reached at 410-495-4789 or we can talk when you come down here in 2 weeks.

John
