OELD

SUBJECT: UCLA RESEARCH REACTOR

For your information I am forwarding to you copies of the settlement agreement among the parties to the UCLA adjudicatory proceedings and two orders recently issued by the Atomic Safety and Licensing Board. The orders terminate the adjudicatory proceedings as well as replace the license with a Board order, which contains all the provisions of former License R-71.

One of the provisions of the settlement agreement (Sections 4 and 9) requires Region V as well as NRR to serve to the intervenors copies of all external correspondence concerning the UCLA reactor. I discussed this provision with you and Mr. Wenslawski prior to signing the agreement and was assured there is no obstacle to placing the intervenor on the Region V service list for the UCLA Argonaut-UTR.

The two addresses for the intervenor are set out below:

1. Committee to Bridge the Gap  
1637 Butler Ave.  
Los Angeles, CA 90025
2. Daniel Hirsch  
3489 Branciforte Dr.  
Santa Cruz, CA 95065

Now that the Board has approved the settlement agreement, its provisions are binding on the parties. Thus, by this note, I am requesting that the above addresses be placed on the Region V service list for the UCLA reactor.

Thank you very much for your attention to this matter.

  
Colleen P. Woodhead
