Mr. John L. Skolds, President
and Chief Nuclear Officer
Exelon Nuclear
Exelon Generation Company, LLC
4300 Winfield Road
Warrenville, IL 60555

SUBJECT: REQUEST TO WITHHOLD DYNAMIC SIMULATOR SCENARIOS AND JOB
PERFORMANCE MEASURES FROM PUBLIC DISCLOSURE

Dear Mr. Skolds:

By letter dated August 13, 2002, Mr. W. Iliff, Regulatory Assurance Manager from your Clinton Power Station, requested that the NRC withhold from public disclosure certain material from a recently administered initial license exam. Specifically, Mr. Iliff requested that dynamic scenarios 6 and 7 as well as reactor operator job performance measures A.1.A.3, A.1.B.3, A.2.3, A.3.3, and A.4.3, submitted to the NRC on May 28, 2002, be withheld from public disclosure. An affidavit (pursuant to 10 CFR 2.790) signed by Thomas J. Shortell, Operations Training Manager, was provided.

We have reviewed Mr Iliff's request and concluded that this material was not used during the July/August, 2002 initial license examination administered at your Clinton Power Station. Therefore, we see no regulatory need to maintain these documents or to make these documents publically available. In a telephone conversation between myself and Mr. T. Shortell, Operations Training Director from your Clinton Power Station, we agreed to destroy all documentation of the above examination material.

If you have any questions regarding this matter, please contact me at 630-829-9732.

In accordance with 10 CFR Part 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

David L. Pelton, Acting Chief
Operations Branch
Division of Reactor Safety
