**Approved Versions of BAW-10199P-A, Addendum 2 and BAW-10199-A, Addendum 2**

Ref.: 1 Letter, NRC to James F. Mallay (Framatome ANP), "Acceptance for Referencing of Licensing Topical Report BAW-10199P, Addendum 2, 'Application of BWU-Z CHF Correlation to the Mark-BW 17 Fuel Design with Mid-Span Mixing Grids,' " March 27, 2002.

In accordance with the instructions contained in the letter of Reference 1, Framatome ANP has assembled the approved versions of BAW-10199P-A, Addendum 2 and BAW-10199-A (non-proprietary), Addendum 2. Enclosed are two CDs, one containing the proprietary version and one containing the non-proprietary version of the report. Addendum 2 of this report consists of Appendix F to BAW-10199. There was one RAI on this report, which--together with the responses--is included as Appendix G.

This letter and its enclosures supercede the original issue of the letter on July 2, 2002, in order to provide the proprietary and non-proprietary versions of the report on separate CDs.

Very truly yours,

James F. Mallay, Director  
Regulatory Affairs

Enclosure
