

September 13, 2002

Mr. Ronald L. Simard
Nuclear Energy Institute (NEI)
1776 I Street, NW, Suite 400
Washington, DC 20006-3708

SUBJECT: EARLY SITE PERMITS

Dear Mr. Simard:

The purpose of this letter is to acknowledge receipt of your letter regarding the Nuclear Energy Institute's (NEI's) views on the Plant Parameter Envelope (PPE) concept dated August 9, 2002. The Nuclear Regulatory Commission (NRC) has always been receptive to the use of alternative approaches to meet regulatory requirements. Specifically, the staff met with NEI on January 10, April 24, May 28, June 13, July 16, and August 22, 2002, to discuss issues related to the early site permit (ESP) process. The NRC staff looks forward to working-level discussions on the practical implementation of the PPE approach. The next follow-up meeting to discuss the use of the PPE approach to meet Title 10 of the *Code of Federal Regulations* (10 CFR) Part 52 requirements is tentatively scheduled for September 25, 2002. Please contact Ronaldo Jenkins, the ESP Senior Project Manager at 301-415-2985 if you have any questions regarding the upcoming meeting.

Sincerely,

/RA/

James E. Lyons, Director
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

Project No. 689

Enclosure: As stated
