**Subject: COLUMBIA GENERATING STATION, DOCKET NO. 50-397
REPORT OF COMPLIANCE WITH INTERIM SAFEGUARDS AND
SECURITY COMPENSATORY MEASURES**

- References: (1) Letter dated February 25, 2002, NRC to JV Parrish (Energy Northwest),
"Issuance of Order for Interim Safeguards and Security Compensatory
Measures for Columbia Generating Station"
- (2) Letter dated March 18, 2002, JV Parrish (Energy Northwest) to NRC,
"Response to Order for Interim Safeguards and Security Compensatory
Measures"

Dear Sir or Madam:

Pursuant to 10 CFR 50.4 and enclosure 1, Section III.C.2 of reference 1, Energy Northwest is hereby reporting that full compliance with the interim compensatory measures as specified in reference 2 has been achieved at Columbia Generating Station. (Columbia). The interim compensatory measures have been implemented at Columbia in consideration of the guidance provided to the Commission by the Nuclear Energy Institute on July 24, 2002. Energy Northwest acknowledges that these actions are interim and the Order is based upon the need to take prudent actions in response to the continuing generalized high-level threat environment that exists following the terrorist attacks of September 11, 2001. Energy Northwest also acknowledges that the requirements contained in the Order will remain in effect until notification from the Commission that a significant change in the threat environment has occurred, or until the Commission determines that changes are needed following a more comprehensive re-evaluation of current safeguards and security programs.
