SUBJECT: THREE MILE ISLAND NUCLEAR STATION, UNIT 1 (TMI-1), RE: ONCE-  
TROUGH STEAM GENERATOR (OTSG) KINETIC EXPANSION INSPECTION  
AND REPAIR CRITERIA (TAC NO. MB5798)

Dear Mr. Skolds:

On August 1, 2002, AmerGen Energy Company, LLC, submitted additional information regarding the kinetic expansion inspection and repair criteria for TMI-1 OTSG tubes in response to the Nuclear Regulatory Commission (NRC) staff's August 24, 2001, assessment of the TMI-1 kinetic expansion inspection and repair criteria. Your August 1, 2002, letter requested the NRC approve the kinetic expansion inspection and repair criteria for TMI-1. As discussed with your staff, your August 1, 2002, request did not address all of the issues identified in the August 24, 2001, NRC staff assessment, and was thus judged to be incomplete. By letter dated August 28, 2002, you requested withdrawal of your August 1, 2002, application, and stated that you would resubmit your application by October 4, 2002. The NRC staff accepts your withdrawal of your August 1, 2002, application and will review your resubmitted application when received. This completes our effort on TAC No. MB5798.

If you have any questions, please contact me at 301-415-1402.

Sincerely,
