(4) C. E. Mac Donald letter to L. H. Heider dated 4/13/79

Dear Sir:

Subject: 10CFR Part 71.51, Establishment and Maintenance of a Quality Assurance Program

In response to reference (4), YAEC requests that the specific revision number of YOQAP-1-A not be designated and the revision be understood to be the latest.

The reason for this request is that reference to a specific revision would require maintenance of a separate, static QA program, Revision 6, for 10CFR71.51 in addition to the dynamic QA program for the balance of activities. This would be contrary to 10CFR71.51 (d).

We trust this meets with your approval; however, should you have any questions, please contact us.

Very truly yours,

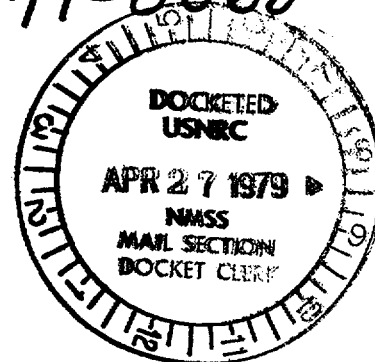

YANKEE ATOMIC ELECTRIC COMPANY
