SUMMARY

- 1- requested look into for SN 5291, 7055, 13638, 14212 / licensee says haven't seen there.
- 2- discussed failure to look source and on going not being work at Huntington Valley job site. - RSO great violation
- 3- discussed apparent evidence of technician's work out of house. Mr. Conrad stated that it was not being done - he was needed for time in 1988 - technician told to stop going on job site for continuing job, returned to Maps Landry when ~~not possible~~ job over. If not possible to stop on job site, told to keep in vehicle - never told to stop in house. - not Co. policy. Higher don't keep on job sites because picking by union workers or vandalism on site - don't feel safe. Conrad said would not award license to add employee ~~and~~ but it could be a strange feeling on Co. site in Voorhees, NJ. to cut about 2 travel.
