MESSAGE: Hello, I am having trouble getting answers to some questions from TVA and would like to know if the following questions are public information. If the info is available to the public, I would appreciate help finding the appropriate documents. 1) At what two plant sites does TVA store its low-level radioactive waste? 2) How many tons of nuclear waste is being stored at Browns Ferry, Watts Bar, and Sequoyah? 3) How much nuclear waste does each of TVA's 5 reactors produce annually? 4) Is the DOE going to store weapons-grade plutonium at TVA's Bellefonte site? I greatly appreciate any help you can offer in answering the above question. Thank you.
